Load floor net

Elasticated net attaches to tie-down hooks in the load compartment. Helps to secure smaller items. (Accessory only)

Load compartment mat

Reversible design offers choice of carpet or durable rubber surface ideal for carrying wet or dirty items. Also offers fold-out bumper protection. (Accessory only)

Load retention system

Robust retention systems meeting European ECE-R17/ISO27955 safety requirements keep items of luggage safely in the load compartment. A net can be ordered for fitment behind the second row of seats, while a guard is available for fitment behind either first or second row. (Accessory only). (Not available in conjunction with Tri-zone Electronic Automatic Temperature Control)

Tow bars

Ford's power-operated retractable tow bar automatically stows itself out of sight below the rear bumper when not in use, retaining the car's sleek looks. (Accessory only not in combination with load levelling). Also available as a detachable tow bar (Option and Accessory) and a fixed tow bar (Accessory only). While towing, the standard Electronic Stability Control (ESC) ensures the trailer sway is counteracted.

Mud flaps

Contoured mud flaps help to keep your Ford Galaxy clean by reducing road spray and stone chips. Available as sets for front and rear. Not in combination with body styling kit. (Accessory only)

Cross bars, for roof rails

Sturdy and lockable cross bars allow you to transport loads safely and easily. The cross bars are only available in combination with roof rails, and form the basis for various available roof attachments. (Accessory only)

Rubber floor mats

All-weather rubberised floor mats are tailor-made to fit perfectly and protect against dirt and damp. Securely fixed directly onto the vehicle's floor, the mat cannot slip and interfere with the pedals. (Accessory only)

For a comprehensive list of accessories, view the Online Accessory Catalogue at www.ford-accessories.co.uk
 For a range of Ford branded merchandise – from clothing to lifestyle products and model cars – visit www.fordlifestylecollection.com

LED front indicators

Ford Galaxy's LED daytime running lights integrated into the headlights, also function as turn indicators, flashing sequentially towards the direction of turn (available as part of the optional Ford Dynamic LED Headlights).

Adaptive Lighting with Ford Dynamic LED headlights

The optional Adaptive Lighting system with variable light distribution provides enhanced illumination in a range of driving situations, based on speed, steering wheel angle or camera information.

City light

Country road light

Less drag, less fuel*

Active Grille Shutter

To reduce wind resistance, the Active Grille Shutter automatically opens and closes to control the amount of cooling air entering the engine compartment. The result? Faster engine warm-up times and a reduction in aerodynamic drag for better fuel economy.

*Compared to vehicles where Active Grille Shutter is not fitted.

Convenience at the touch of a button

The 10-way power-operated driver's seat with memory function makes getting in and out of the Ford Galaxy Titanium X as easy as pressing a button, always returning to your ideal driving position. (Image shown with optional rear compartment air-conditioning)

● = Standard, ○ = Optional, at extra cost, □ = Part of an option pack, at extra cost.

Heated steering wheel

Warms up at the touch of a button to add another layer of comfort between you and the cold outside. Available as an option (must also have heated front seats selected as an option on Zetec & Titanium).

Arrive refreshed and invigorated

Multi-contour front seats

Built into the front seats are 11 pneumatic cushions, arranged to provide extra support, comfort and, when required, give you a massage. Operated via the 8" colour touchscreen, they can massage your upper back, lower back, bottom and thighs to help prevent muscle fatigue on long journeys. Both front seats are covered in perforated leather and include a cooling and heating function and 10-way power adjustment. (Available as an option on Titanium X. Must be ordered with Sony DAB Navigation system.)

● = Standard, ○ = Optional, at extra cost, □ = Part of option pack, at extra cost.

Helps you find a space. And get in. And get out again

Active Park Assist

Can help you either to parallel park, or park perpendicular to the road. Once activated, the enhanced system can help locate a suitable space as you drive past. It automatically steers you in, while you operate the pedals (following on-screen and audible signals).

Park-Out Assist

Designed to help you get out of a parallel parking space in the same way.

Improved response

High Power bi-turbo diesel engine

Efficient, refined and powerful, the high-power 240 PS EcoBlue diesel engine delivers significantly higher outputs and lower fuel consumption than a conventional diesel. The electronically-controlled sequential bi-turbo design helps ensure optimum efficiency, with both smooth and strong acceleration across the speed range, and excellent performance feel.

All our engines – petrol and diesel – are equipped with Auto-Start-Stop that automatically cuts off the engine when the car comes to a stop, further reducing exhaust emissions and fuel consumption.

Fuel, performance and emissions

The test used to establish fuel consumption and CO₂ figures has changed to deliver results that are more representative of real life driving. The Worldwide Harmonised Light Vehicle Test Procedure (WLTP) has replaced the old NEDC test. The Fuel Consumption figures shown are derived from the new WLTP test. However, until 6th April 2020, the CO₂ figure shown will be the NEDC equivalent and this will be used to calculate Vehicle Excise Duty.

Understanding fuel data

The table below shows the fuel consumption (WLTP) and CO₂ emissions (NEDC equivalent) for each available engine when fitted on a standard specification Ford S-MAX (with no options or accessories). Adding options or accessories to your chosen vehicle can impact WLTP fuel consumption and CO₂ emissions. Please speak to your Ford dealer for more information.

The fuel consumption you achieve in real life conditions and CO₂ produced will depend upon a number of factors including any options and accessories fitted, variations in weather, driving styles and vehicle load

*In 4th gear. ** This engine and wheel combination is not orderable and therefore there is no CO₂ data to display. ^{oo}Ford test figures.

^{oo}The declared Fuel/Energy Consumptions, CO₂-Emissions and Electric range are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. Light Duty Vehicles type-approved using the World Harmonised Light Vehicle Test Procedure (WLTP) have Fuel/Energy Consumptions and CO₂-Emission information for both New European Drive Cycle (NEDC) and WLTP. WLTP is a new, more realistic test procedure for measuring fuel consumption and CO₂ emissions and will fully replace the NEDC latest by end of the year 2020. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO₂ emissions and electric range. CO₂ is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO₂ emissions which contain data for all new passenger car models is available at any point of sale free of charge or can be downloaded under <http://carfueldata.dft.gov.uk>.

^{oo}Represents the lightest kerbweight assuming driver at 75 kg, full fluid levels and 90% fuel levels, subject to manufacturing tolerances and options, etc, fitted. The performance and economy of all models will be reduced when used for towing. Roof load weight limit is a maximum of 75 kg on all models

Calls to 0344 and 0345 numbers are charged at the same rate as a standard 01 or 02 geographic number, even when calling from a mobile.

own

When you drive away in your new car, we're with you all the way. Ford has a large authorised service network to help you keep your car in the best condition.

And should your new Ford ever require accident repair, a Ford Accident Repair Centre is the best place to get your car back to its pre-accident condition and on the road as quickly as possible.

*Live Traffic requires SYNC3 with navigation and comes free for the first 2 years from the date of registration, thereafter there is an annual licence fee.

FordPass

The new FordPass app lets you access a range of Ford services designed to help make journeys easier and more enjoyable. These include:

- **Live Traffic*** – delivers up-to-the-minute traffic data for the best-calculated journey times possible
- **Find fuel** – lets you search for refuelling points, refine your search by brand or fuel grade
- **Parking** – search for available parking spaces, and check their costs, opening hours and ratings

*From the date of first registration. Subject to terms and conditions.

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and recommended prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. Fitment of accessories may have an impact on your vehicle's fuel consumption. +The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular vehicle. The vehicles themselves have not been tested and there are inevitably differences between individual vehicles of the same model. In addition, a vehicle may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.

Ford and BP – working together to reduce fuel consumption and emissions.
