The delivery charge is included in the Basic Recommended Retail Price and is made on all models for delivery to the Dealer's premises. Where delivery is not made to the customer at the Dealer's premises a further charge may be made by the Dealer. The Vehicle Excise Duty (VED) charged on new cars is based on their engine's CO₂ emissions* (expressed in grams per kilometre (g/km)). All CO₂ emissions figures in g/km are from officially approved tests in accordance with European Regulations (EC) 715/2007 and (EC) 2017/1151 as last amended. The chart above shows the Bands and the VED which will be levied (for vehicles registered from [1st April 2023](#) onwards). If a car's list price is over £40,000 (including VAT and factory fitted options) at first registration, the customer will pay an additional VED charge (currently £390) for five years after the end of the first registration (in addition to the standard VED charge per year, currently £180). Alternatively Fuelled Vehicles will pay the standard VED of £170 from year 1.
