### Transit Custom

# Introduction

Many customers take their vehicles to after-market companies to customise their vehicles to their needs. If we can meet more of their needs with options provided directly by Ford, we can simplify this process and reduce the time between placing an order and having a vehicle ready to use.

The provision of these options ensures that Ford's Commercial Vehicle range remains the best platform to meet the complex and varied needs of a wide range of industries. Our mission to understand and meet our customer's needs ensures we can provide the best support to customers for this purchase and future purchases, building a long-term relationship.

## Electrical & Power Supply

- Auxiliary Fuel Port
- Digital Tachograph
- Dual H7 AGM Batteries
- Dual H8 AGM Batteries
- Engine RPM Controller
- Manual DPF Regeneration - ICE Only
- Single H7 AGM Battery
- Single H8 AGM Battery
- Smart Fuse Box (SVO)
- Smart Fuse Box (Standard on Nugget)
- Towing Electrics
- Vehicle Integration System

## Auxiliary Fuel Port

The Auxiliary Fuel Port provides a fuel line and connector from the tank for easier attachment to auxiliary equipment such as aftermarket heaters.

It is fitted with a TI LOCC QC 7.89 female connector as standard; and is recommended that a 7.89 male adapter mating part is fitted (Available from: TI Automotive GmbH)

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** GB2AB

**Available on:** Transit Custom, Tourneo Custom, Camper

# Digital Tachograph

The Tachograph records the driving time, breaks, rest periods and is used for any commercial or for-hire purpose enterprise. Check local legislation for specific requirements.

**Note:**

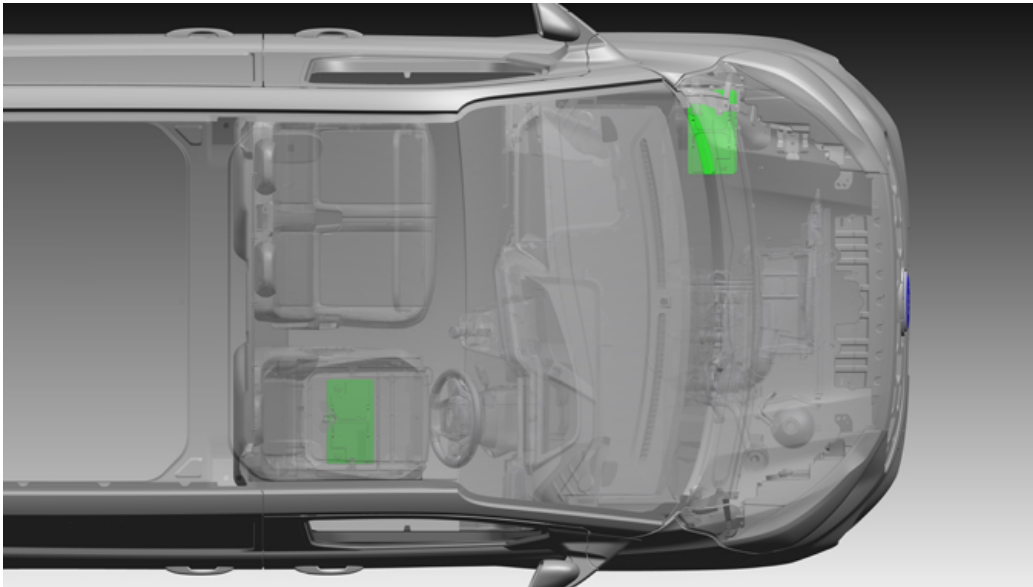

This feature is only available with Manual Transmission for Transit Custom.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** HDKAD

**Available on:** Tourneo Custom

## Dual H7 AGM Batteries

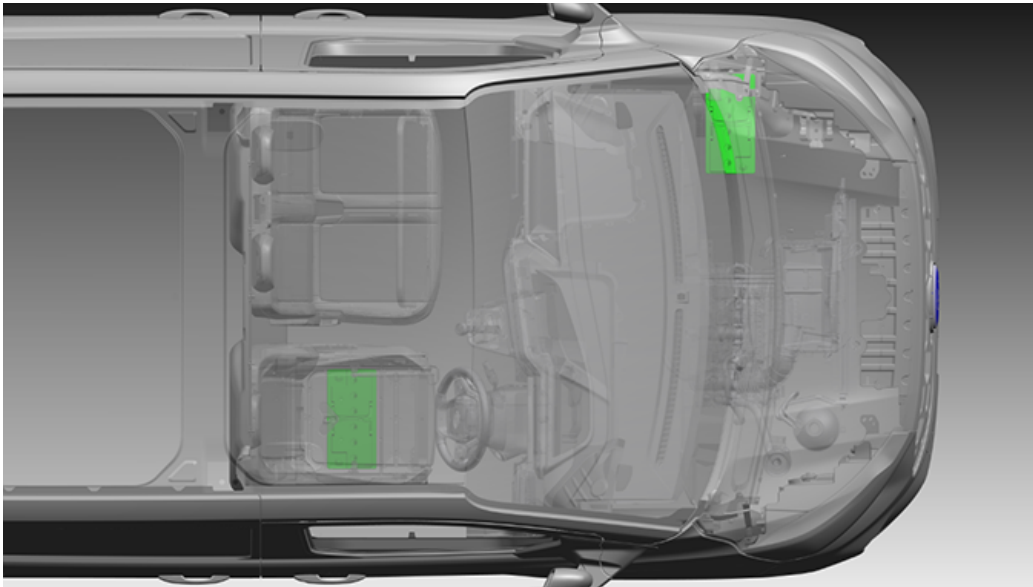

2 x 80Ah H7 AGM Deep Cycle Batteries (~2kWh) the main battery located in the engine compartment and auxiliary battery located in the driver's seat pedestal.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** HTAAC

**Available on:** Tourneo Custom

## Dual H8 AGM Batteries

2 x 95Ah H8 AGM Batteries (~2.4kWh)

Suitable for vehicles requiring engine-off power requirements higher than your standard battery. For example, conversions requiring telematics / trackers.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** HTAAZ

**Available on:** Tourneo Custom, Camper

# Engine RPM Controller

Engine RPM Controller enables the engine to be run at an elevated idle speed. This option is used for electrical and mechanical power take-off to drive supplementary equipment.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** DCNAB

**Available on:** Transit Custom, Tourneo Custom, Camper

## Offers 3 modes of operation:

- Mode 1: 3-speed (defaults: 1100RPM, 1600RPM, 2030RPM), this is configurable
- Mode 2: variable speed
- Mode 3: idle up-speed

## General Information

- Types of conversions that would benefit from this option include refrigeration and utility conversions. This feature requires a third party control box.
- The details of either solution can be found in the BEMM.

## Not available on:

- PHEV & BEV vehicles

## Manual DPF Regeneration - ICE Only

This option allows the driver to manually trigger DPF regeneration whilst the vehicle is stationary with the engine running - the process takes between 10 and 20 minutes. The cluster display reports when a regeneration cycle is required. Recommended for diesel vehicles which are used mainly for short journeys or prolonged idling.

**Market Availability:** GREAT BRITAIN

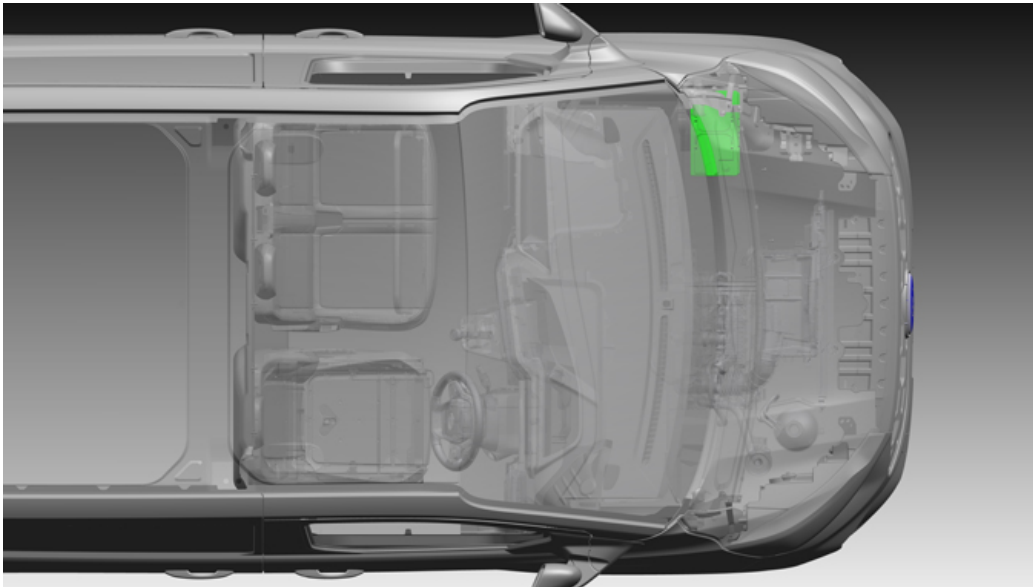

**Minor Feature Code:** A6YAB

**Available on:** Transit Custom, Tourneo Custom, Camper

### Not available on:

- BEV powertrain
- PHEV powertrain

## Single H7 AGM Battery

1 x 75Ah EFB (~0.9kWh) or 80Ah AGM (~1kWh) technology depending on selected vehicle option.

Located in engine compartment

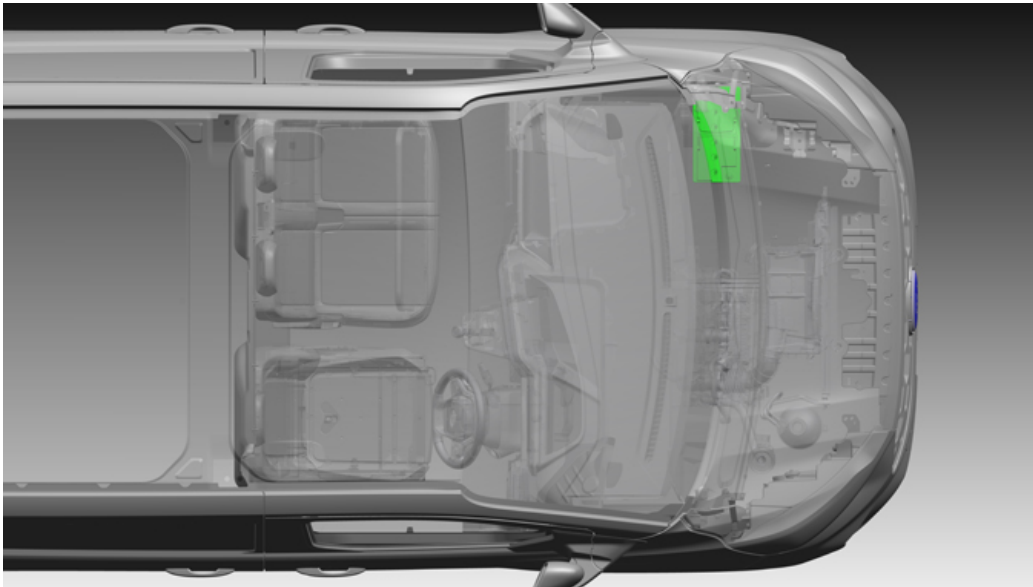

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** HTAAB

**Available on:** Tourneo Custom

## Single H8 AGM Battery

1 x 95Ah H8 AGM Battery (1.2kWh) located in engine compartment. Suitable for vehicles requiring engine-off power requirements higher than your standard battery. For example, conversions requiring telematics / trackers.

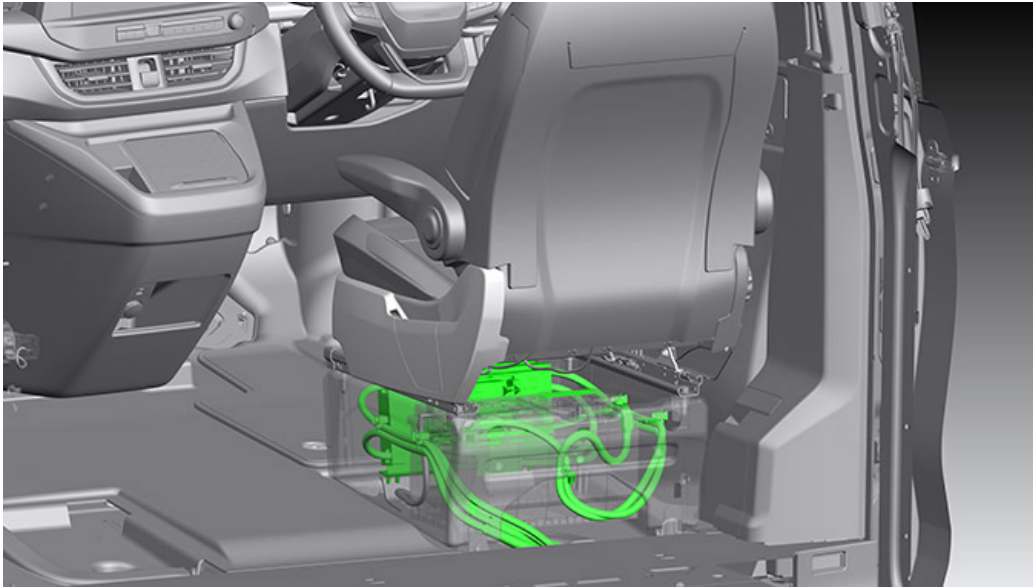

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** HTABG

**Available on:** Tourneo Custom

## Smart Fuse Box (SVO)

Specifically for conversions where there is extra equipment fitted that requires a separate protected power supply. The Smart Fuse Box combines multiple features into one convenient option including a high-current fuse box, battery guard & split charging (up to 3 batteries in total).

The unit is capable of handling high-current power supply whilst also being able to process vehicle signals.

**Note:**

The unit is fitted in the drivers seat pedestal.

Only compatible with H8 battery complexity (single, twin, triple)

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** JZXAD

**Available on:** Tourneo Custom

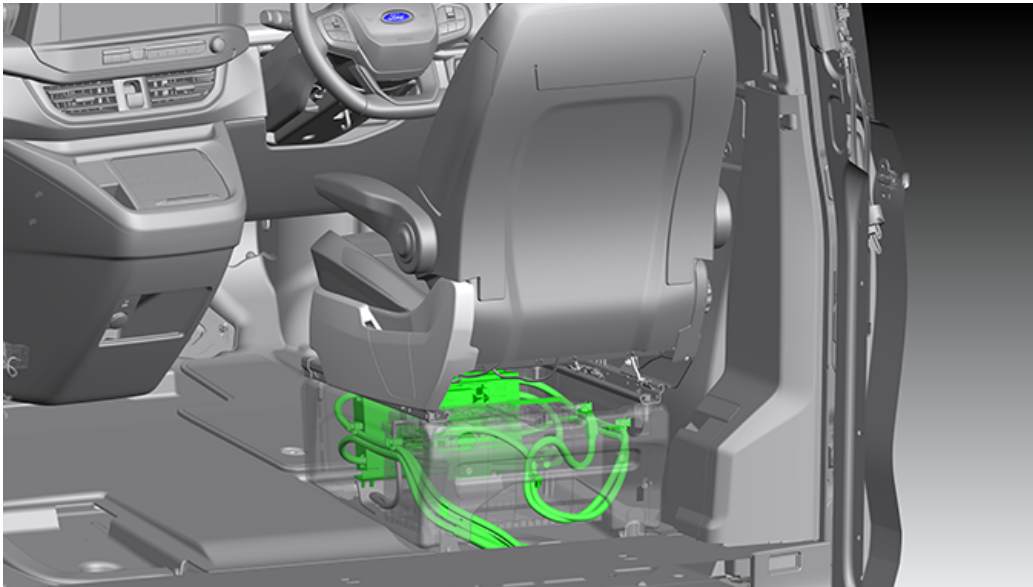

### Includes:

- Fuse box with 8 inputs & 8 outputs
- Programmable Battery Guard
- Split Charge
- Battery monitoring

### Not Available with:

- 400W Inverter
- Standard duty battery
- H7 batteries

## Smart Fuse Box (Standard on Nugget)

Designed specifically for conversions with extra equipment fitted that requires a separate protected power supply. The Smart Fuse Box combines multiple features into one convenient option including a high-current fuse box, battery guard & split charging (Up to 3 batteries in total). The unit is capable of handling high-current power supply whilst also being able to process vehicle signals.

**Note:**

The unit is fitted in the drivers seat pedestal.

Only compatible with H8 battery complexity (single, twin, triple)

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** JZXAF

**Available on:** Camper

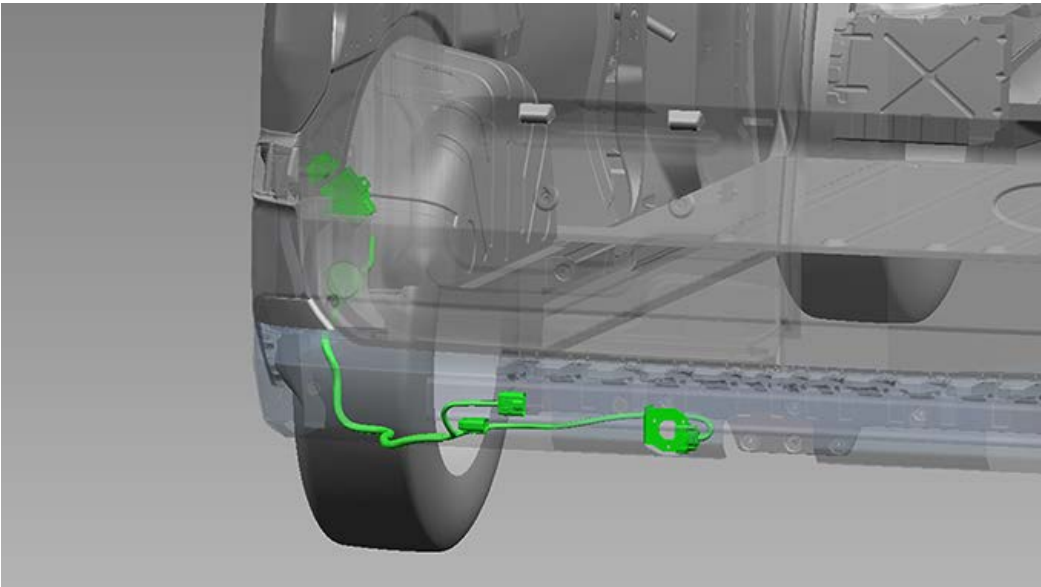

**Includes:**

- Fuse box with 8 inputs & 8 outputs
- Programmable Battery Guard
- Split Charge
- Battery monitoring

**Not Available with:**

- 400W Inverter
- Standard duty battery
- H7 batteries

# Towing Electrics

This option includes Towing Electrics (Wiring) without the physical Tow-Bar. Meets the needs of particular fleet customers that fit their own special tow-bar but require the electrical signals for lights and the Electronic Features provided from the base vehicle including trailer sway control and side wind mitigation. Includes 13-pin socket mounting bracket.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** C1DAD

**Available on:** Transit Custom, Tourneo Custom, Camper

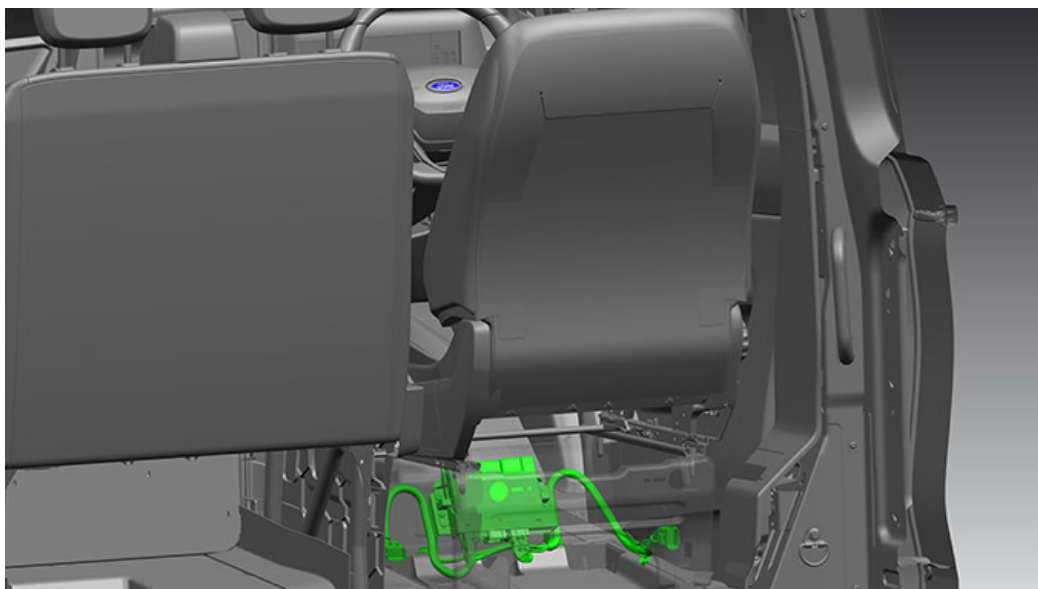

**Includes:**

- Wiring without the physical tow-bar

**Excludes:**

- 13-Pin plug adapter
- Tow-Bar

# Vehicle Integration System

## Includes

- Pack comes complete with module, bracket and jumper harness pre-installed
- Upfitter blunt cut harness is included in the glove box for conversion
- Pack is retrofittable

The vehicle integration system is a programmable input/output controller which communicates on the vehicle CAN network. The module utilises the Sync display for control and monitoring of converted vehicle equipment.

The Logic Tool means converters don't need any programming experience to configure the module and create new features for the vehicle (more information can be found in the BEMM)

### Note:

For further details refer to the Body and Equipment Mounting Manual (BEMM)

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** JRSAB

**Available on:** Transit Custom, Tourneo Custom, Camper

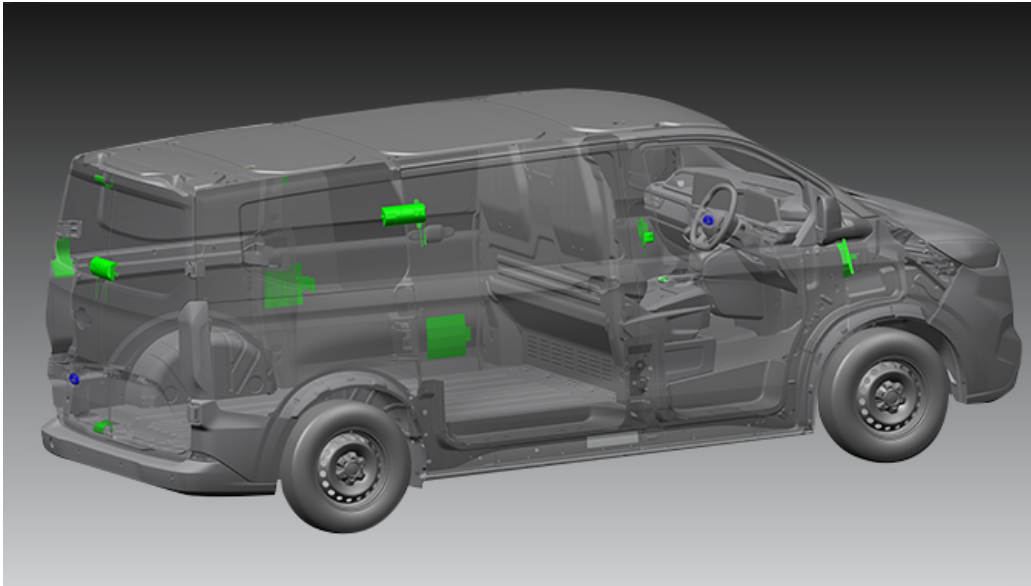

## Features and benefits:

- 16x Digital Inputs
- 8x Analogue Inputs
- 6x 5A switched outputs - controlled via the sync display for switching equipment up to 5A (Beacons, lighting, isolators etc)
- 2X 10A switched outputs - controlled via the sync display for switching equipment up to 10A (light bars, pumps inverters etc)
- 4X 5A H-Bridge outputs - for power supply up to 5A
- 10X PWM based LS/HS switched outputs - for use when adding additional relays for switched power requirements greater than 10A
- Vehicle Comms – read only - access to a range of vehicle CAN signals to support vehicle conversions
- Private CAN – J1939.

## Exterior

- Armourshell Security Pack TVL™
- Cabin Deadlock Security Pack TVL™
- Enhanced Security Replock™ TVL™
- Hooklock Security Pack TVL™
- Loadspace Armourshell Security Pack TVL™
- Loadspace Hooklock Security Pack TVL™
- Slam Handle Security Pack TVL™
- Special Paint Options

## Armourshell Security Pack TVL™

The Armourshell pack by market leader TVL™ is factory fitted providing additional protection for the vehicle in 5 ways:

- RepLock™ prevents the driver's door lock from being compromised
- Front door deadlocks are independently operated locks that cast a bolt between the door and B pillar once engaged.
- Armourshells provide a visual deterrent and are the most robust security option; an interlocking shell design and a supporting bolt mechanism offer enhanced protection of the load space
- Latch shields fitted to all load space doors protect from external puncture attempts to override the mechanism and
- Loom guards fitted to front cabin doors and rear cargo door to prevent door looms from being severed

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AAKAE

**Available on:** Transit Custom

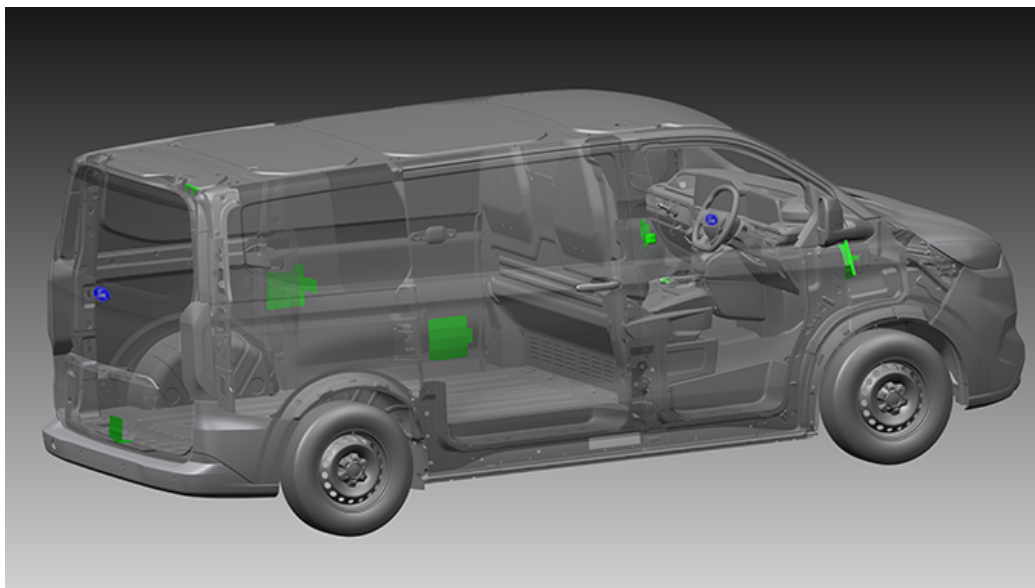

### Includes:

- Front Door Anti-Pick RepLock™
- Front Door Loom guards
- Front Door Deadlocks (Driver & Pass)
- Loom Guards RCD
- Latch Shields (SSLD, DSLD & RCD)
- Armourshells (SSLD, DSLD, RCD)

### Not available with:

- Power Side Load Door
- 2nd row glazing Transit Custom

## Cabin Deadlock Security Pack TVL™

The Cabin Protection pack by market leader TVL™ is factory fitted providing additional protection and mechanical locks in the cabin area.

- RepLock prevents the driver's door lock from being compromised.
- Deadlocks are independently operated locks that cast a bolt between the door and B pillar once engaged to provide additional security on both front doors.
- Latch shields are fitted to all load space doors to protect from external puncture attempts to override the mechanism
- Loom guards (front and rear cargo doors / tailgate) to prevent the door looms from being severed

It cannot be purchased with any other lock pack, this is only to secure cabin area and add a higher level of security on the rest of the vehicle

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AAKAF

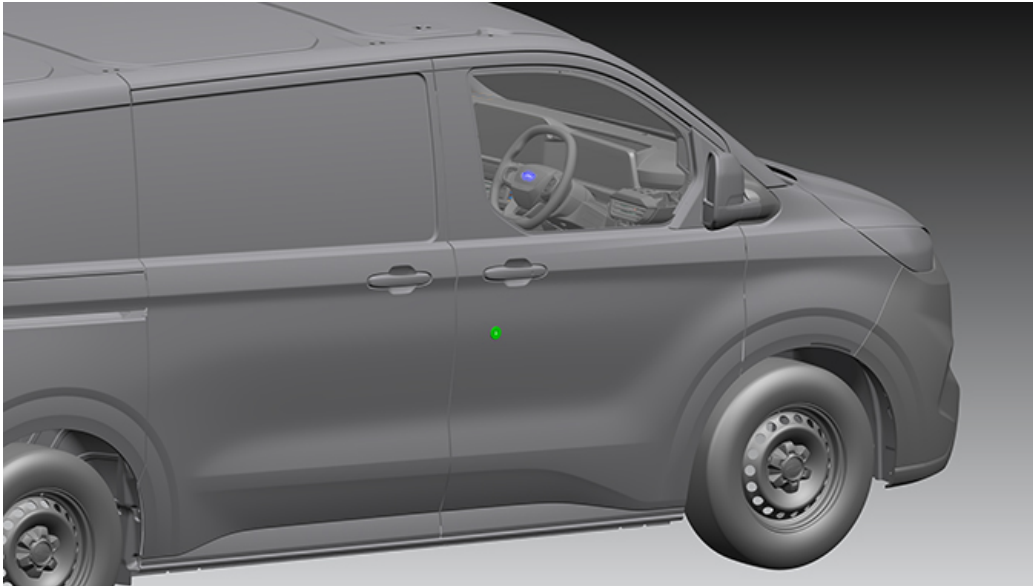

**Available on:** Transit Custom

### Includes:

- Front Door Anti-Pick RepLock™
- Front Door Loom guards
- Front Door Deadlocks (Driver & Pass)
- Loom Guards RCD/Tailgate
- Latch Shields (SSLD, DSLD & RCD/Tailgate)

## Enhanced Security Replock™ TVL™

The Enhanced Security RepLock™, supplied by market leader TVL™, replaces the standard drivers door lock and is a unique, patented high-security replacement cylinder.

Made from a high-grade stainless steel and stops potential thieves from picking the driver's door open to gain access to the vehicle.

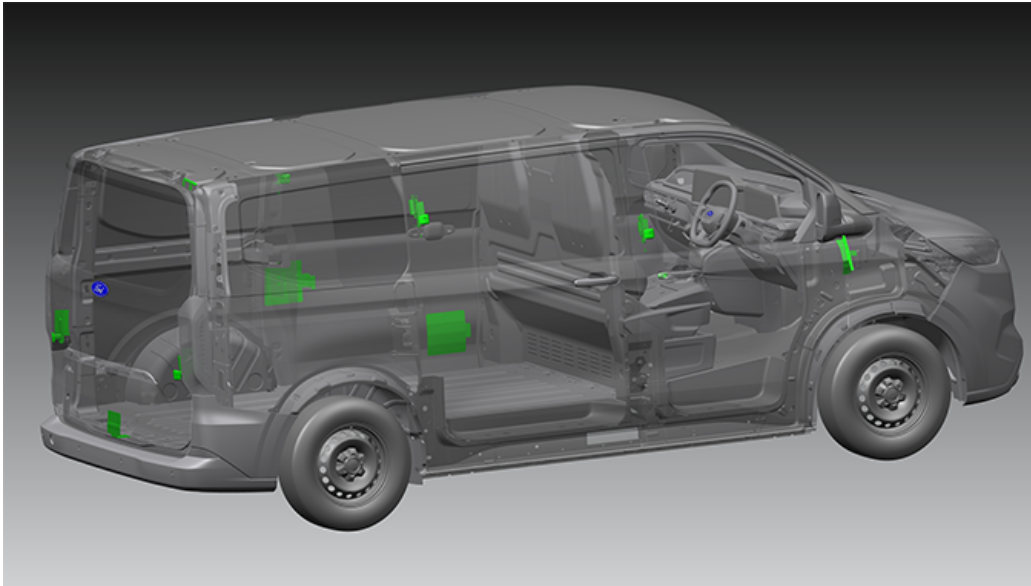

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AAKBA

**Available on:** Transit Custom, Tourneo Custom, Camper

# Hooklock Security Pack TVL™

The Hook Lock security pack by market leader TVL™ is factory fitted enhancing protection for the vehicle in 5 ways:

- RepLock™ prevents the driver's door lock from being compromised and is factory fitted replacing original lock.
- Front door deadlocks are independently operated locks that cast a bolt between the door and B pillar once engaged.
- Hooklocks are fitted on all load space doors and lock the door to pillar using a high strength hook enhancing protection of the load space.
- Latch shields are fitted to all load space doors to protect from external puncture attempts to override the mechanism and
- Loom guards are fitted to cabin doors & RCD / Tailgate to prevent the door looms from being severed

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AAKAD

**Available on:** Transit Custom

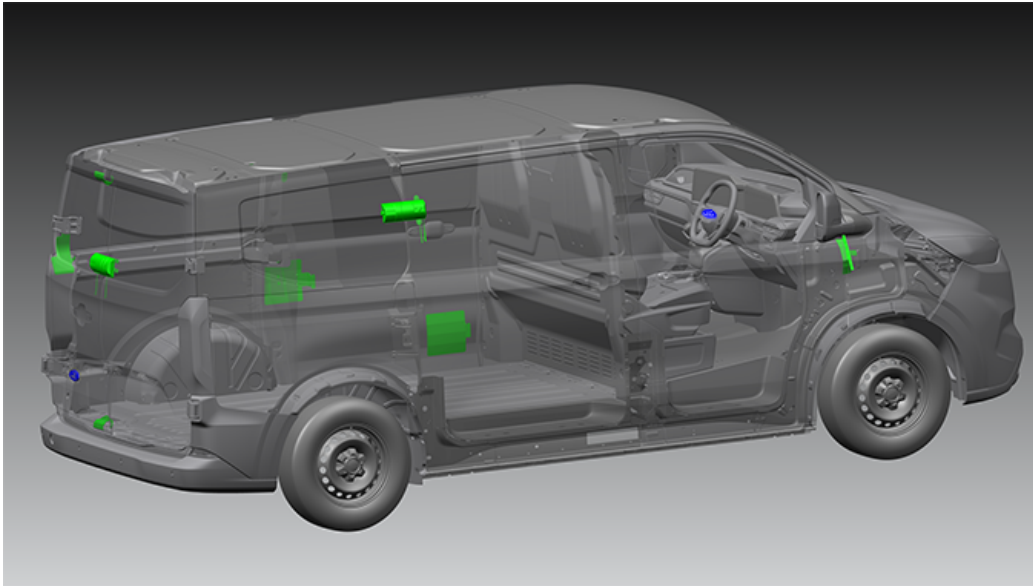

## Includes:

- Front Door Anti-Pick RepLock™
- Front Door Loom guards
- Front Door Deadlocks (Driver & Pass)
- Loom Guards RCD/Tailgate
- Latch Shields (SSLD, DSLD & RCD/Tailgate)
- Hooklocks (SSLD,DSL D RCD/Tailgate)

## Not available with:

- Power Side Load Door
- 2nd row glazing Transit Custom

## Loadspace Armourshell Security Pack TVL™

The Armourshell rear load space pack by market leader TVL™ is factory fitted providing additional protection and mechanical locking in the load space area.

- RepLock™ prevents the driver's door lock from being compromised.
- Armourshells provide a visual deterrent and are the most robust security option with an interlocking shell design and a supporting bolt mechanism
- Latch shields fitted to all load space doors to protect from external puncture attempts to override the mechanism
- Loom guards on cabin doors and rear cargo door prevent the door looms from being severed.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AAKAH

**Available on:** Transit Custom

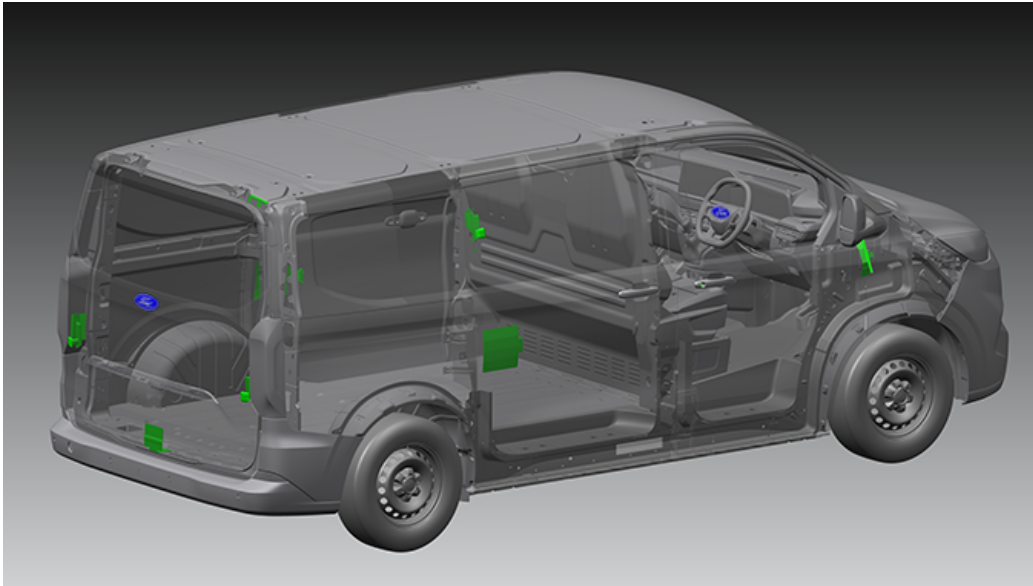

### Includes:

- Front Door Anti-Pick RepLock™
- Front Door Loom guards
- Armourshells (SSLD,DSLD,RCD)
- Loom Guards (RCD)

### Not available with:

- Power Side Load Door
- 2nd row/RCD glazing Transit Custom
- Tailgate

## Loadspace Hooklock Security Pack TVL™

This Hook Lock rear load space pack by market leader TVL™ is factory fitted and provides additional protection and mechanical locks just in the load space area.

- RepLock prevents the driver's door lock from being compromised
- Hooklocks are fitted on all the load space doors and lock the door to pillar using a high strength hook
- Latch shields fitted to all load space doors to protect from external puncture attempts to override the mechanism
- Loom guards cabin doors and rear cargo doors / tailgate to prevent the door looms from being severed

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AAKAG

**Available on:** Transit Custom

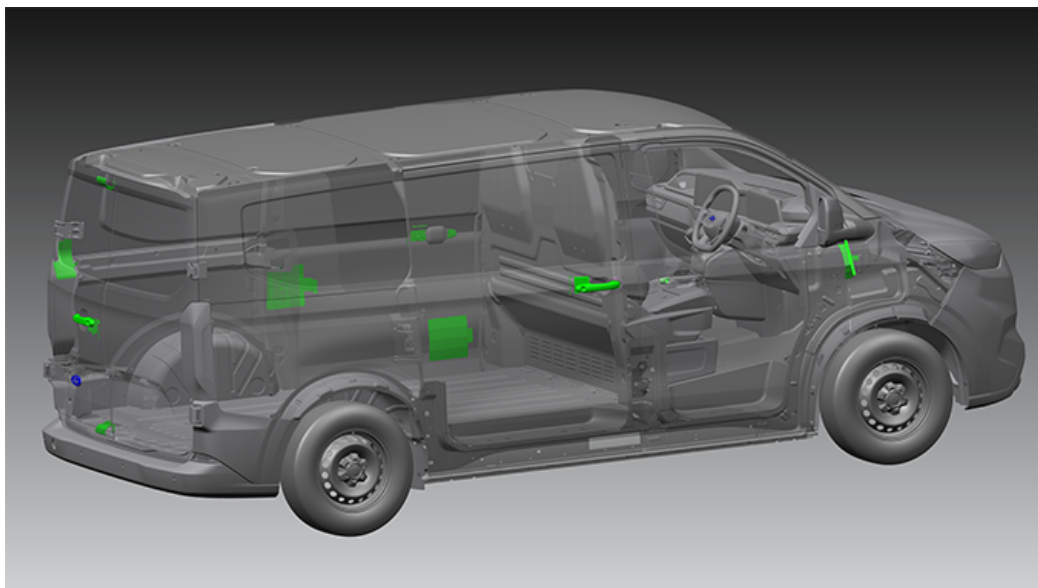

### Includes:

- Front Door Anti-Pick RepLock™
- Front Door Loom guards
- Loom Guards RCD/Tailgate
- Latch Shields (SSLD, DSLD & RCD/Tailgate)
- Hooklocks (SSLD, DSLD RCD/Tailgate)

### Not available with:

- Power Side Load Door
- 2nd row/RCD glazing Transit Custom

## Slam Handle Security Pack TVL™

The Slam Handle security pack by market leader TVL™ is factory fitted & enhances vehicle security in 4 ways:

- RepLock™ prevents the driver's door lock from being compromised
- The Slam handles are an integrated slam locks fitted to all load space doors
- Latch shields are fitted to all load space doors to protect from external puncture attempts to override the mechanism.
- Loom guards and prevent the cables from being severed.

Designed for the courier sector to enable fast exit from a van locking each time the driver exits, increasing their productivity.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AAKAC

**Available on:** Transit Custom

### Includes:

- Front Door Anti-Pick RepLock™
- Front Door Loom guards
- Loom Guards RCD/Tailgate
- Latch Shields (SSLD, DSLD & RCD/Tailgate)
- Slam handle (SSLD, DSLD, RCD)

## Special Paint Options

A customer may wish to customise the exterior of their Ford Commercial Vehicle to reflect their business and brand. Ford offers over 100 Special Paint Options. Finished to the highest standards, all the customer will need to do is add their logo and brand details.

To stay up to date with the paint range and availability contact your local NSC for the latest SVO Paint List.

The below minimum order quantities apply:

Transit Connect: A minimum order of 14 applies or surcharge will be added

E-Transit: Transit SVO Paint available

Ranger: A minimum order of 50 applies, or surcharge added

Others: No restriction

**Note:**

Availability of colours and delivery time may vary by market.

**Market Availability:** All markets

**Minor Feature Code:** Various

**Available on:** Transit Custom, Tourneo Custom, Camper

## Interior

- Digital Tachograph
- Leader & Trend Comfort Driver Seat ONLY (SVO)
- Sortimo™ Serviceline Lite Van Racking Pack

# Digital Tachograph

The Tachograph records the driving time, breaks, rest periods and is used for any commercial or for-hire purpose enterprise. Check local legislation for specific requirements.

**Note:**

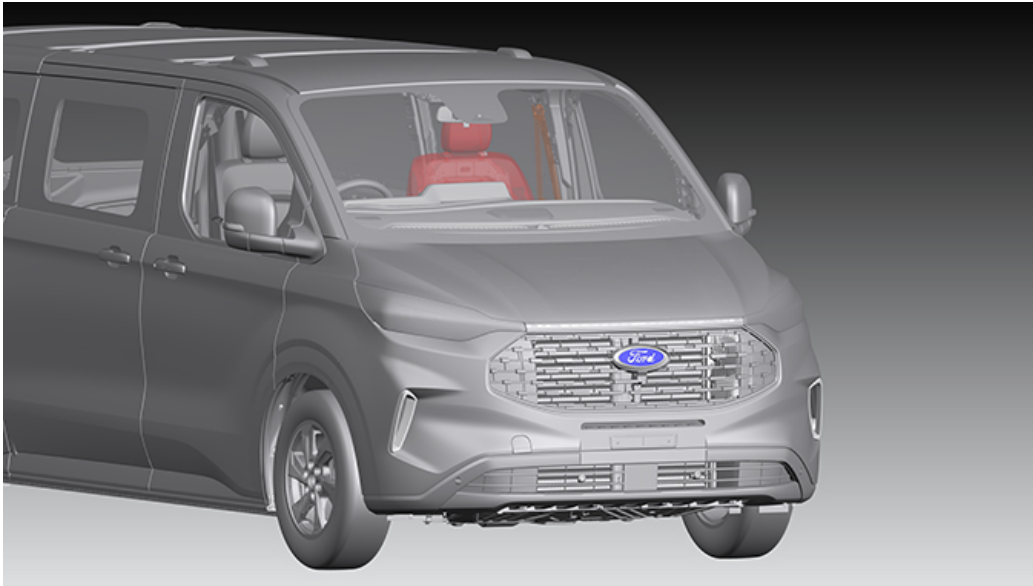

This feature is only available with Manual Transmission for Transit Custom.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** HDKAD

**Available on:** Tourneo Custom

## Leader & Trend Comfort Driver Seat ONLY (SVO)

The passenger seat is removed retaining seat belt.  
This layout is used by fleets such as postal and delivery companies.  
Driver 6-way driver's seat (with lumbar support) with Trend Trim  
Heated seat on Transit BEV and Transit Custom

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** BVFDM

**Available on:** Transit Custom

### Availability:

- Available with fixed steel bulkhead (unglazed and glazed)
- removed bulkhead (where allowed)
- Available with plastic bulkhead

### Not available with:

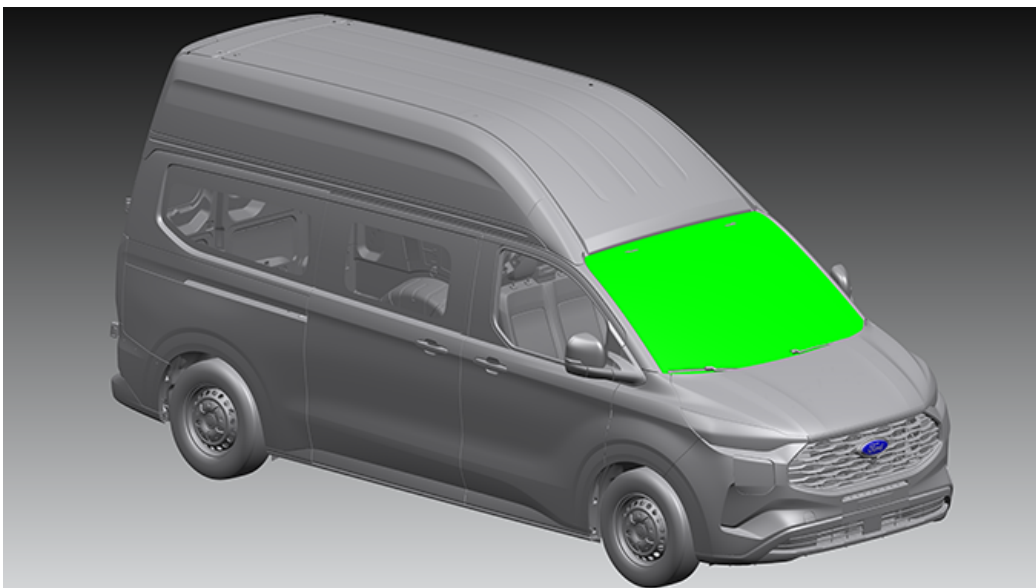

- Load-through hatch

## Blue Light Conversion Options

- Police Polycarbonate Glazing - Windscreen Only
- Police Polycarbonate Glazing Pack

## Police Polycarbonate Glazing - Windscreen Only

The windscreen only pack provides a polycarbonate glazing windscreen that is impact-resistant and shatterproof, highly transparent and lighter than glass.

Available on Van and Kombi L1 and L2.

Incomplete Vehicle - Multistage

**Note:**

Eliminates the waste glass produced when polycarbonate glazing is fitted by Convertor.

**Market Availability:** GREAT BRITAIN

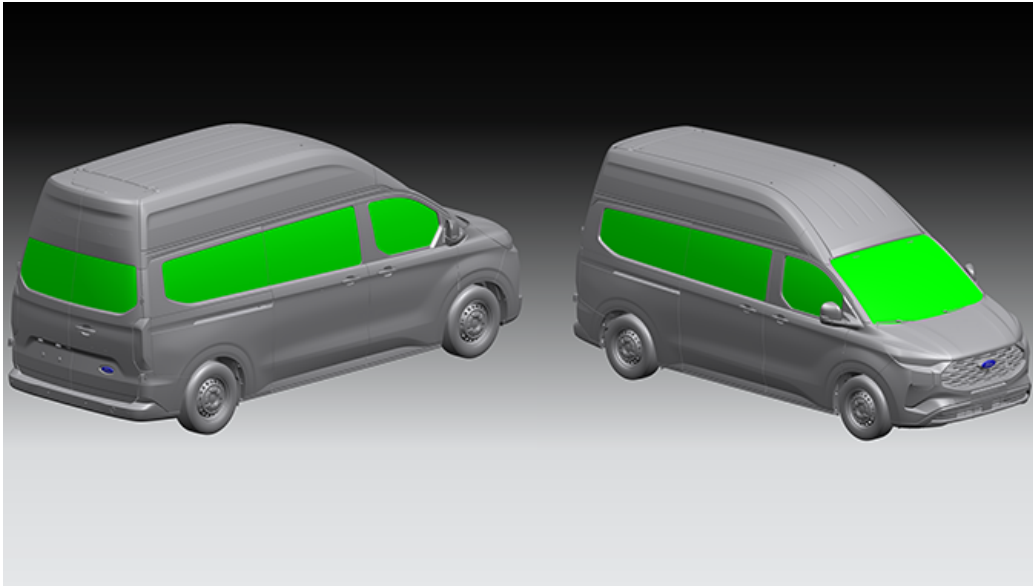

**Minor Feature Code:** AALDE

**Available on:** Transit Custom

### Includes:

- Polycarbonate glazing heated windscreen

## Police Polycarbonate Glazing Pack

The pack provides the ideal emergency vehicle donor for protection against targeted violence or attack. The polycarbonate glazing is impact-resistant and shatterproof, highly transparent and lighter than glass. Available on Van and Kombi L1 and L2.

**Note:** This option is only available for Blue Light vehicles with second-stage homologation carried out by the Convertor.  
Incomplete Vehicle - Multistage

**Note:**  
Eliminates the waste glass produced when polycarbonate glazing is fitted by Convertor.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AALDD

**Available on:** Transit Custom

### Includes:

- Polycarbonate glazing heated windscreen
- Tinted polycarbonate glazing in 2nd row, 3rd row and rear closure

### Excludes:

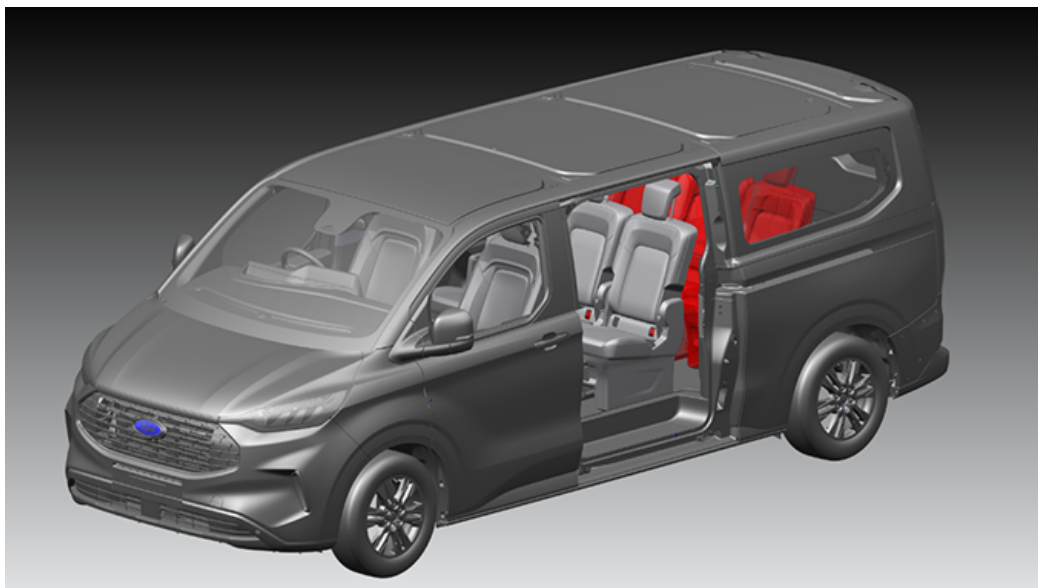

- Bulkhead

# Taxi Conversion Options

- Taxi Prep Pack - 3rd Row Seats Delete
- Taxi Prep Pack - Deletes 2nd & 3rd Row Seats
- Taxi Prep Pack - Deletes 2nd Row Seats

## Taxi Prep Pack - 3rd Row Seats Delete

Designed for taxi or WAV conversions where there is a requirement for greater space at the rear of the vehicle; for stowage or converting for wheelchair access.

The 3rd row seats (including seat belts) are removed leaving the three individual seats in the 2nd row and floor covering fitted throughout the rear of the vehicle. Available on Tourneo and Kombi (Incomplete vehicle - Multistage)

**Note:**

Openings are left in the headliner where the 3rd row seat belts have been removed. This offers converters flexibility to either cover if not required, add in their own bespoke seatbelts or add items such as LED lamps.

**Market Availability:** GREAT BRITAIN

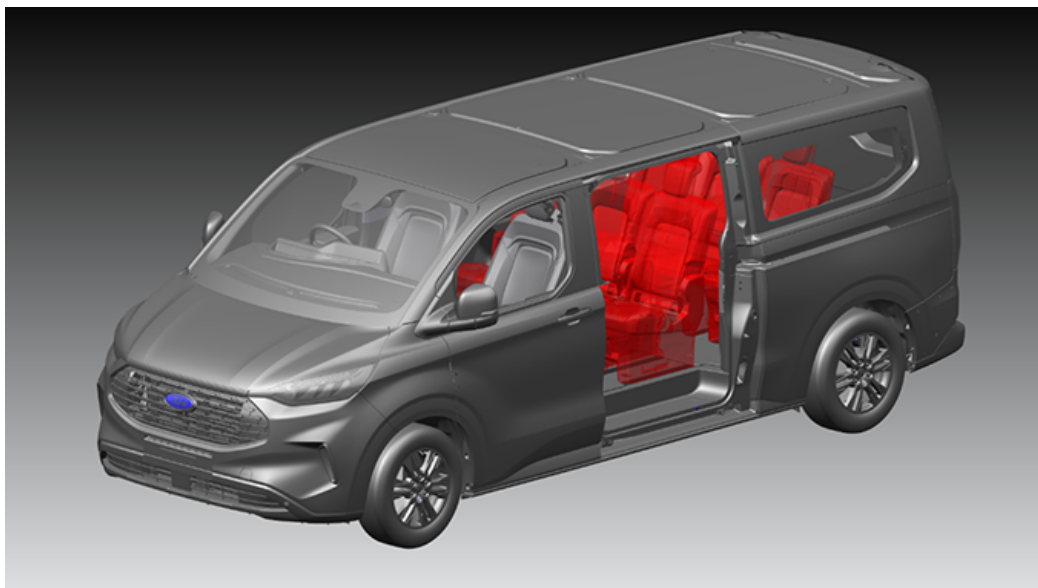

**Minor Feature Code:** AALEY

**Available on:** Transit Custom, Tourneo Custom

### General Information:

- Kombi only on TTU Custom Van

## Taxi Prep Pack - Deletes 2nd & 3rd Row Seats

The pack is designed for taxi or WAV conversions where there is a requirement to remove the 2nd and 3rd row seats. All the rear seats are removed, leaving just the driver and front passenger seat.

The floor covering is also deleted throughout the rear of the vehicle.

Tourneo & Kombi only

(Incomplete vehicle - Multistage)

**Note:**

Openings are left in the headliner where the 3rd row seat belts have been removed, allowing convertors to add seatbelts or cover if not required.

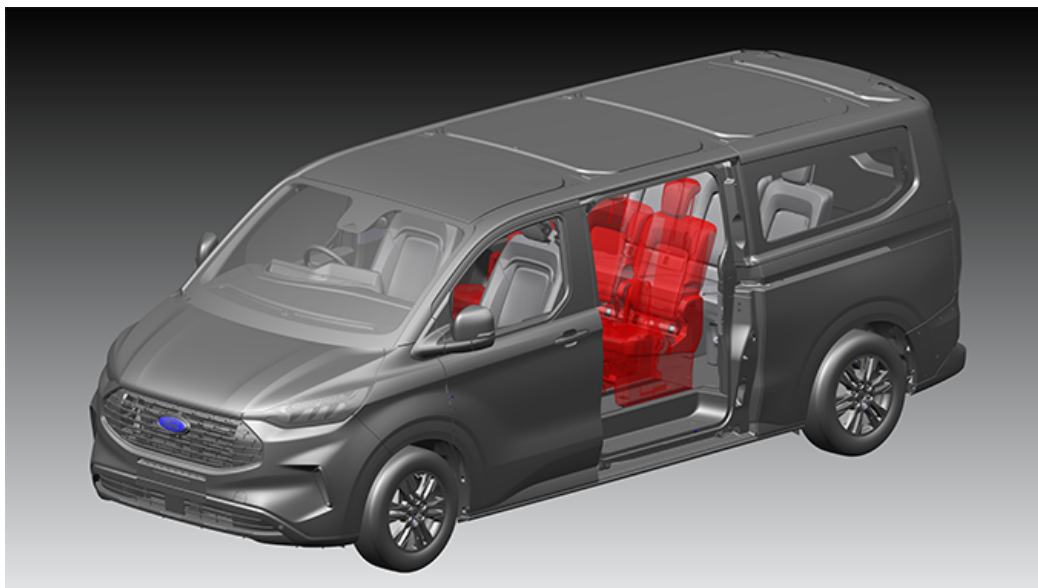

No Floor Covering fitted in rear of vehicle

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AALJ5

**Available on:** Transit Custom, Tourneo Custom

## Taxi Prep Pack - Deletes 2nd Row Seats

The Pack removes the 2nd row seats & restraints.

Third-row seats consist of a dual and single seat; floor covering left in place.

Suitable for Wheelchair and Taxi conversion requirements. Rear HVAC (Heating, Ventilation & Air Conditioning) unit situated behind single seat. (Incomplete vehicle – Multistage)

**Note:**

Allows Converter to fit own bulkhead and 2nd row flip seats

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AALEX

**Available on:** Tourneo Custom

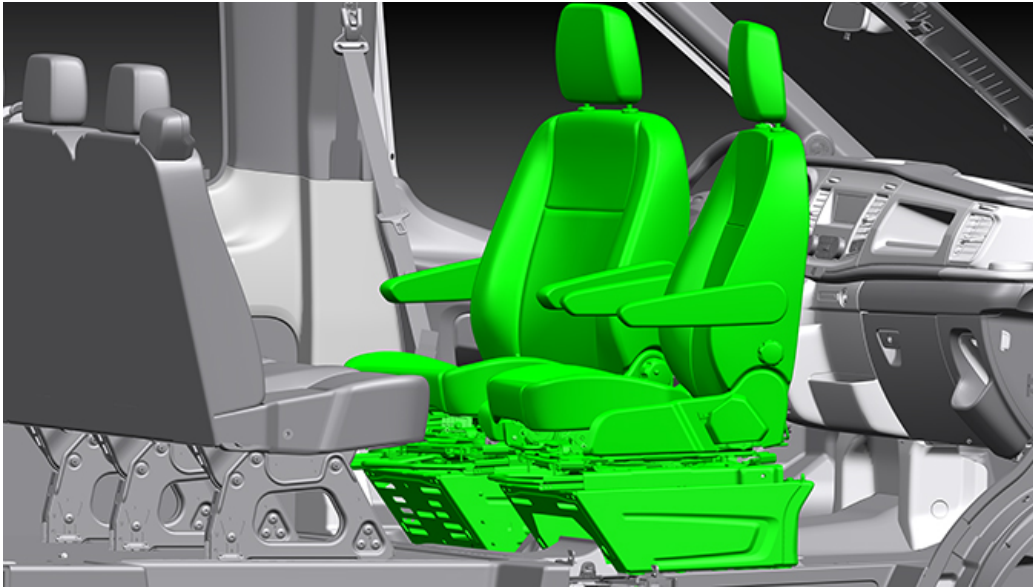

## Motorhome Conversion Options

- Camper Swivel Seat (Active Trim) (SP24)
- Camper Swivel Seat (Less Fabric) (SP26)
- Camper Swivel Seat (Titanium Trim - Black) (SP5)
- Camper Swivel Seat (Titanium Trim - Grey) (SP10)

## Camper Swivel Seat (Active Trim) (SP24)

Camper Swivel Seats in Active Trim , contains adjustable arm rests, lumbar support, 4-way adjust, seat heating.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** BVFA1

**Available on:** Camper

## Camper Swivel Seat (Less Fabric) (SP26)

Camper Swivel Seats without fabric , contains adjustable arm rests, lumbar support, 4-way adjust, seat heating. Less seat mounted airbags (N1 only)

**Note:**

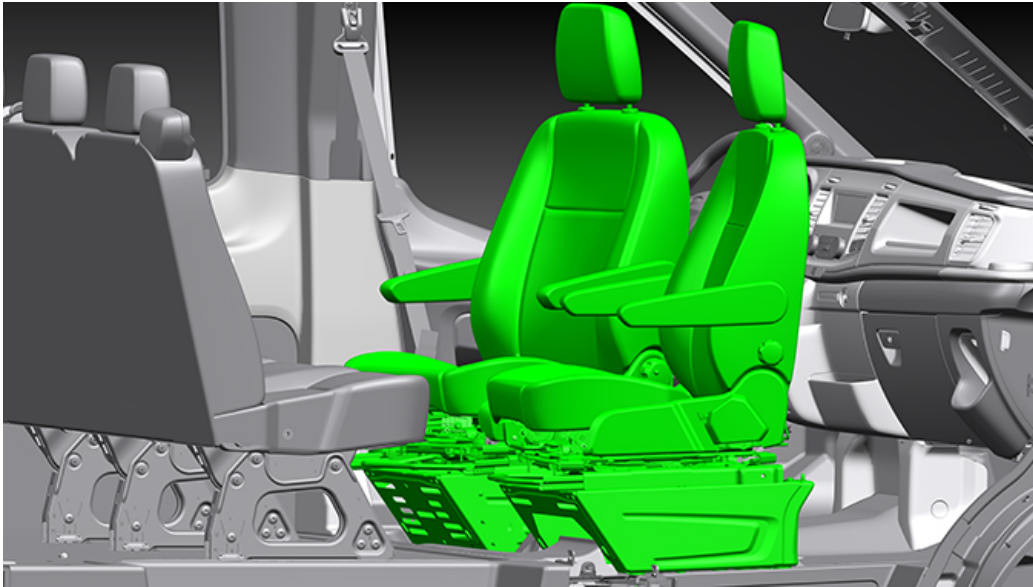

Exposed seat occupant sensor requires additional care during re-covering. Protective coverings are supplied for transport to convertor. (As seen in images)

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** BVFA3

**Available on:** Camper

## Camper Swivel Seat (Titanium Trim - Black) (SP5)

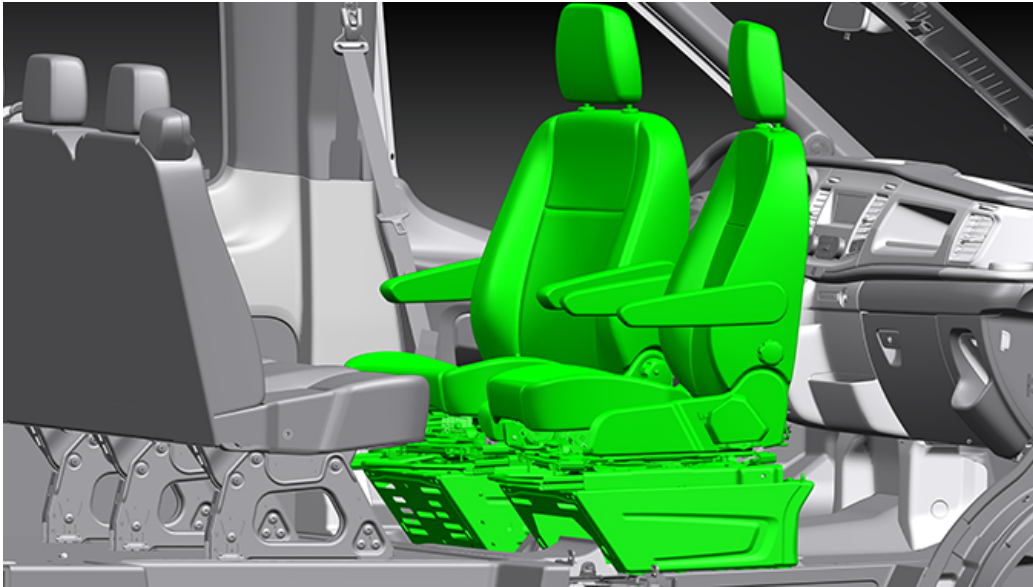

Camper Swivel Seats in Titanium black Trim , contains adjustable arm rests, lumbar support, 4-way adjust, seat heating.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** BVFAF

**Available on:** Camper

## Camper Swivel Seat (Titanium Trim - Grey) (SP10)

Camper Swivel Seats in Titanium grey Trim , contains adjustable arm rests, lumbar support, 4-way adjust, seat heating.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** BVFAL

**Available on:** Camper

# Glossary

<b>Ford Pro Special Vehicles</b>	The Special Vehicles team delivers bespoke conversion solutions to our customers to drive their business productivity
<b>Body and Equipment Mounting Manual (BEMM)</b>	A manual providing technical details and best practice for convertors. All convertors or upfitters should use the BEMM and should adhere to it when converting or modifying any Ford vehicles to protect the Ford Warranty and be sure of a safe conversion. BEMM can be found here: <a href="#">Home (fordpro-specialvehicles.com)</a>
<b>Converters / Bodybuilder / Upfitter</b>	A company whose area of expertise is vehicle conversion, taking a Ford vehicle (a 'donor' product) and adapting it for a specific function / market segment (e.g. a cherry picker, delivery vehicle, tipper)
<b>SWB / LWB</b>	Vehicle length has a set of abbreviations. SWB = Short Wheel Base, LWB = Long Wheel Base
<b>Factory-fitted</b>	An item that is fitted in the factory as part of the vehicle production when the vehicle is built.
<b>H1, H2, H3</b>	Roof Height abbreviations. H1 = Standard Roof, H2 = Medium Roof Height, H3 = High Roof.

## Auxiliary Fuel Port

The Auxiliary Fuel Port provides a fuel line and connector from the tank for easier attachment to auxiliary equipment such as aftermarket heaters.

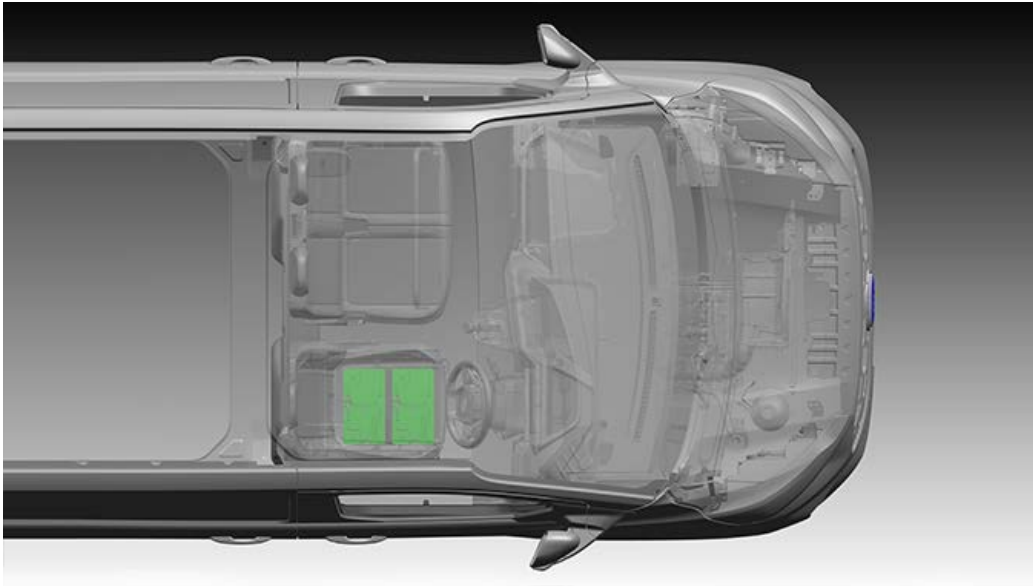

It is fitted with a TI LOCC QC 7.89 female connector as standard; and is recommended that a 7.89 male adapter mating part is fitted (Available from: TI Automotive GmbH)

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** GB2AB

**Available on:** Transit Van, Transit Chassis

## Dual H7 AGM Batteries

2 x 75Ah H7 EFB (~1.8kWh), 2 x 80Ah AGM (~2kWh) or 2 x 80Ah SLI (~2kWh) batteries depending on selected vehicle option.  
Located in driver seat pedestal

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** HTAAC

**Available on:** Transit Van

## Dual H8 AGM Batteries

2 x 95Ah H8 AGM Batteries (~2.4kWh) located in driver seat pedestal.

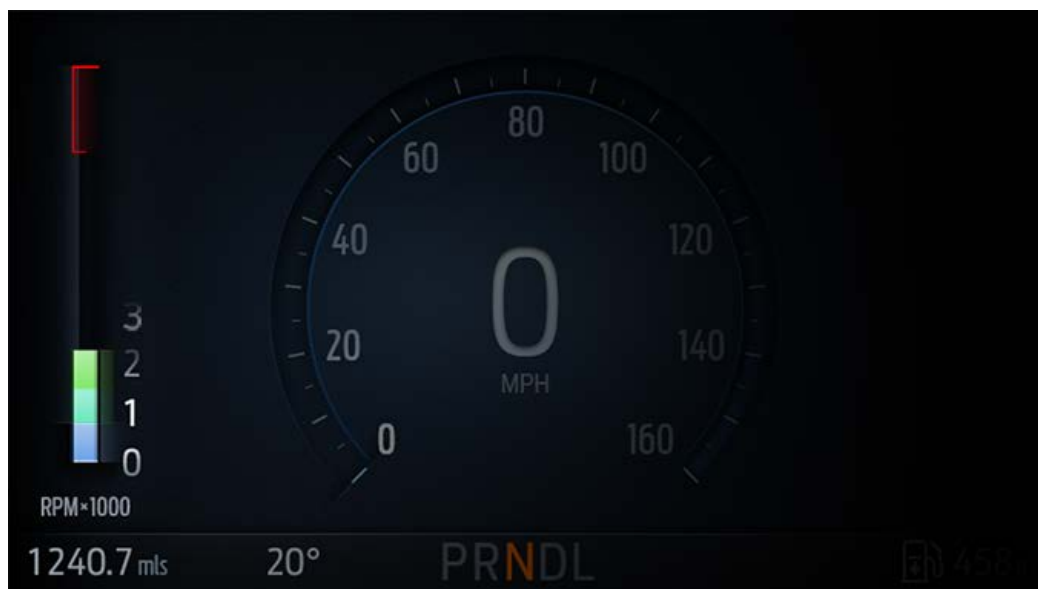

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** HTAAZ

**Available on:** Transit Van

# Engine RPM Controller

Engine RPM Controller enables the engine to be run at an elevated idle speed. This option is used for electrical and mechanical power take-off to drive supplementary equipment.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** DCNAB

**Available on:** Transit Minibus, Transit Van, Transit Chassis

## Offers 3 modes of operation:

- Mode 1: 3-speed (defaults: 1100RPM, 1600RPM, 2030RPM), this is configurable
- Mode 2: variable speed
- Mode 3: idle up-speed

## General Information:

- Types of conversions that would benefit from this option include refrigeration and utility conversions. This feature requires a third party control box.
- The details of either solution can be found in the BEMM.

## Not available on:

- PHEV & BEV vehicles

## Led Cabin Lighting

The enhanced LED cabin light of around 500 lumens greatly benefits any operator who uses their cabin as a mobile office

**Market Availability:** GREAT BRITAIN

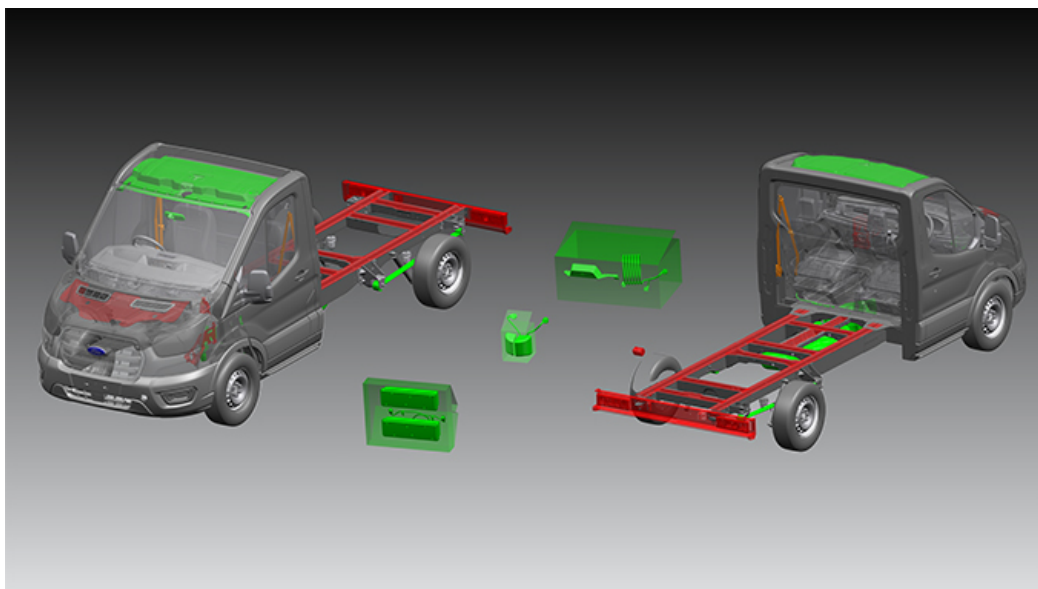

**Minor Feature Code:** JCFAL

**Available on:** Transit Van

### General Information

- Included in JCMAD

## Lightweight Chassis Cab Donor

This package reduces the overall weight of a chassis cab donor vehicle to be suitable for supermarket delivery vehicles.

It has been designed for conversions where the box/body is mounted directly to the chassis rails instead of the perimeter frame.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AALA1

**Available on:** Transit Chassis

### Includes:

- 58 litre diesel tank
- 16 litre AdBlue tank
- Composite leaf springs
- Removal of chassis rail top plates and ladder frame parts
- Removal of overhead parcel shelf
- vehicle integration system

## Manual DPF Regeneration - ICE Only

This option allows the driver to manually trigger DPF regeneration whilst the vehicle is stationary with the engine running - the process takes between 10 and 20 minutes. The cluster display reports when a regeneration cycle is required. Recommended for diesel vehicles which are used mainly for short journeys or prolonged idling.

**Market Availability:** GREAT BRITAIN

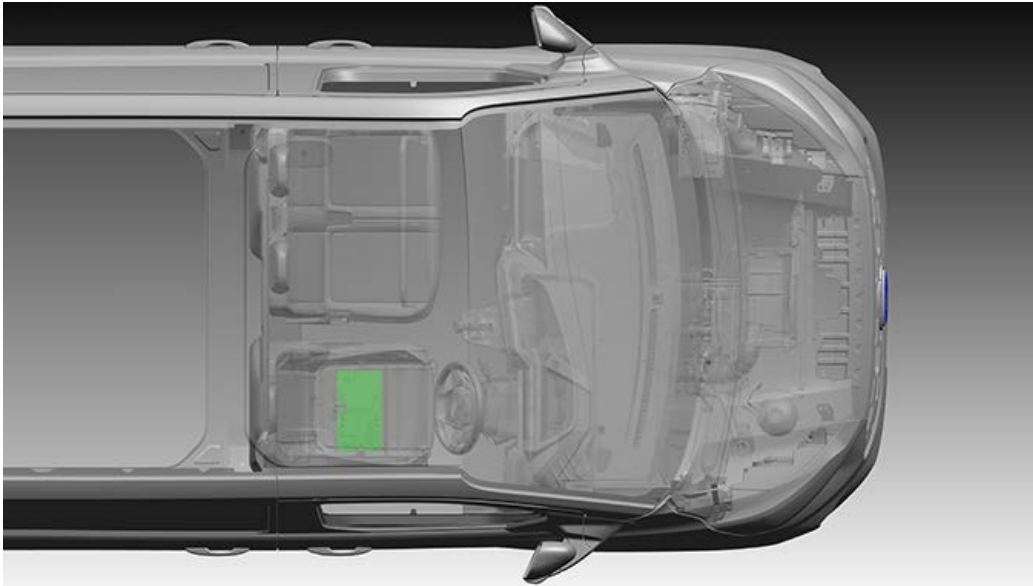

**Minor Feature Code:** A6YAB

**Available on:** Transit Minibus, Transit Van, Transit Chassis

### Not available on:

- BEV powertrain
- PHEV powertrain

## Single H7 AGM Battery

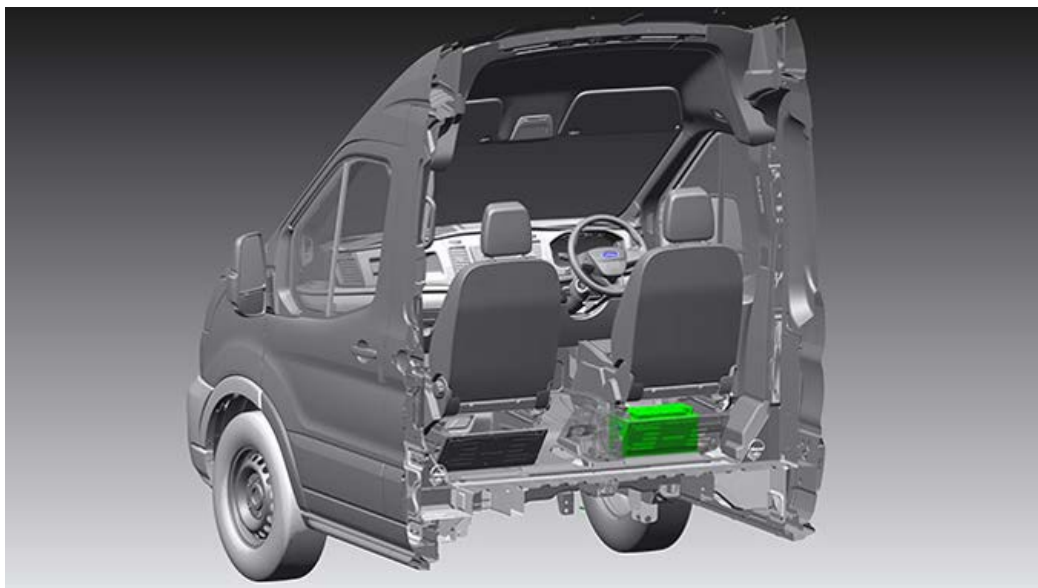

1 x 75Ah EFB (~0.9kWh), 1 x 80Ah AGM (~1kWh) or 1 x 80Ah SLI (~1kWh) technology depending on selected vehicle option.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** HTAAB

**Available on:** Transit Van

## Single H8 AGM Battery

1 x 95Ah H8 AGM Battery (~1.2kWh) located in the driver seat pedestal. Suitable for vehicles requiring engine-off power requirements higher than your standard battery. For example, conversions requiring telematics / trackers.

**Note:**

Refer to the BEMM for further details. H8 Twin AGM Deep Cycle Battery is available

**Market Availability:** GREAT BRITAIN

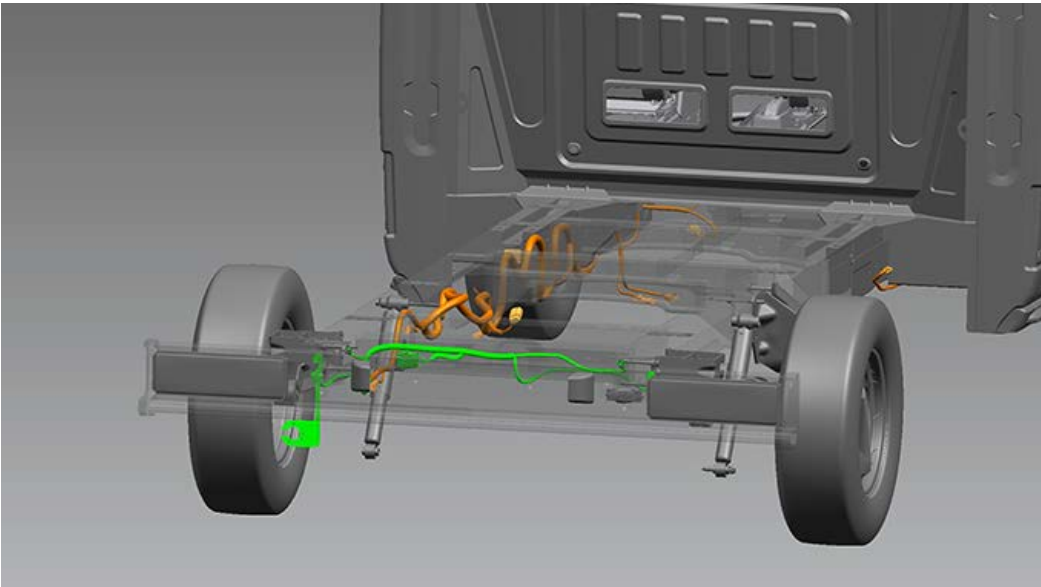

**Minor Feature Code:** HTABG

**Available on:** Transit Van

**Not available with:**

- Power Equipment Groups(Transit only)
- Heavy Duty Starter Motor(Transit only)
- Power Point Plug Converters(Transit only)
- Outboard Level Parking Brake(Transit only)
- Fuel Fired Heaters
- Rear Compartment Heating
- Smart Tachograph
- Rear Air Conditioner
- Roof Mounted Turn Signals

# Towing Electrics

This option includes Towing Electrics (Wiring) without the physical Tow-Bar. Meets the needs of particular fleet customers that fit their own special tow-bar but require the electrical signals for lights and the Electronic Features provided from the base vehicle including trailer sway control and side wind mitigation. Includes 13-pin socket mounting bracket.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** C1DAD

**Available on:** Transit Minibus, Transit Van, Transit Chassis

**Offers 3 modes of operation:**

- Mode 1: 3-speed (defaults: 1100RPM, 1600RPM, 2030RPM), this is configurable
- Mode 2: variable speed
- Mode 3: idle up-speed

**General Information:**

- Types of conversions that would benefit from this option include refrigeration and utility conversions. This feature requires a third party control box.
- The details of either solution can be found in the BEMM.

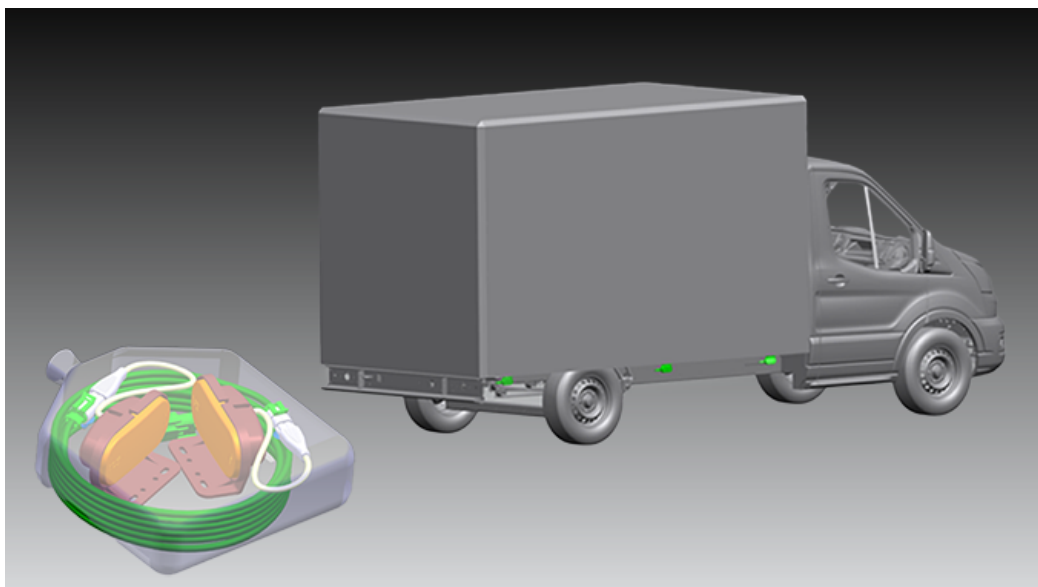

**Includes:**

- Wiring without the physical tow-bar

**Excludes:**

- 13-Pin plug adapter
- Tow-Bar

## Transit Chassis Side Lamp Pack

Depending on the length of the vehicle and the conversion type, the Transit Chassis Side Lamp Pack may be a legal requirement.

This includes multiple LED lamps with connectors and brackets that can be added to the side of the Transit Chassis. The wiring and lamps are delivered in a kit (4 or 6 lamps based upon the spec of the vehicle).

**Note:**

Refer to the BEMM for further details.

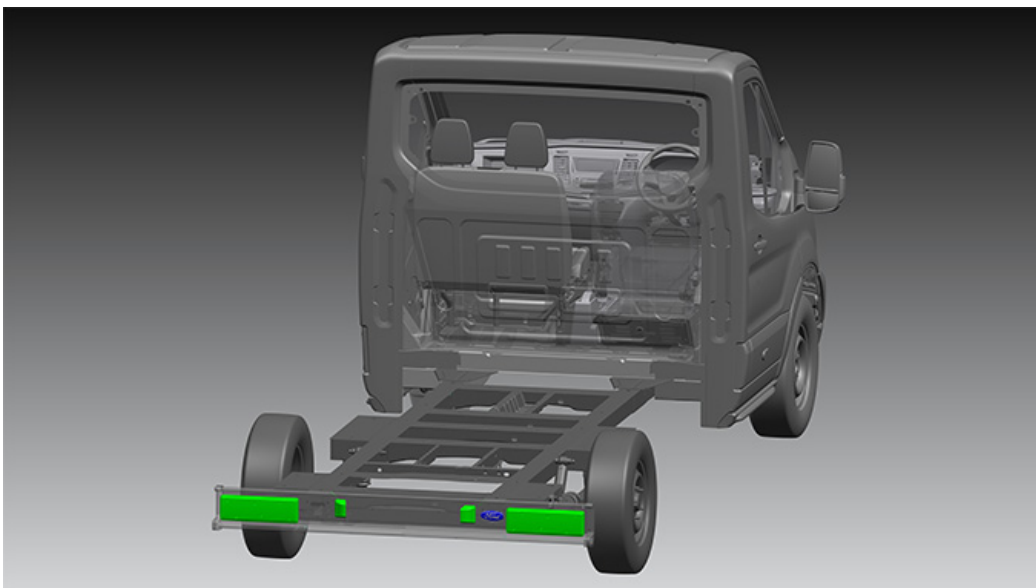

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** JDCAH

**Available on:** Transit Chassis

## Transit Skeletal Chassis Rear Lights Pack

The Transit Skeletal Chassis is supplied without rear underrun bar preventing rear lamp units and rear license plate lamps to be fitted as standard.

The pack supplies rear lights (provided inside the vehicle) packaged ready for fitting at conversion.

Incomplete Vehicle - Multistage

**Market Availability:** GREAT BRITAIN

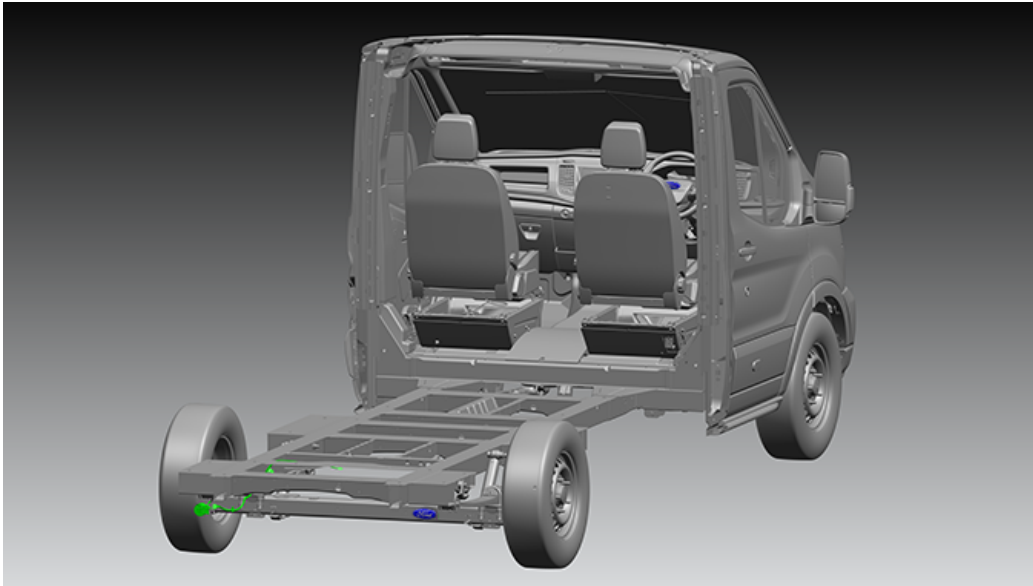

**Minor Feature Code:** BEBAC

**Available on:** Transit Chassis

### Includes:

- Right and left rear lights
- License plate lamps for the rear license plate

## Transit Skeletal Chassis Reverse Gear Buzzer

This option allows the customer to order the buzzer component and is supplied in kit form ready for skeletal chassis conversions.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** HLDAB

**Available on:** Transit Van

# Vehicle Integration System

## Includes

- Pack comes complete with module, bracket and jumper harness pre-installed
- Upfitter blunt cut harness is included in the glove box for conversion
- Pack is retrofittable

The vehicle integration system is a programmable input/output controller which communicates on the vehicle CAN network. The module utilises the Sync display for control and monitoring of converted vehicle equipment. The Logic Tool means convertors don't need any programming experience to configure the module and create new features for the vehicle (more information can be found in the BEMM)

### Note:

For further details refer to the Body and Equipment Mounting Manual (BEMM)

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** JRSAB

**Available on:** Transit Minibus, Transit Van, Transit Chassis

## Features and benefits:

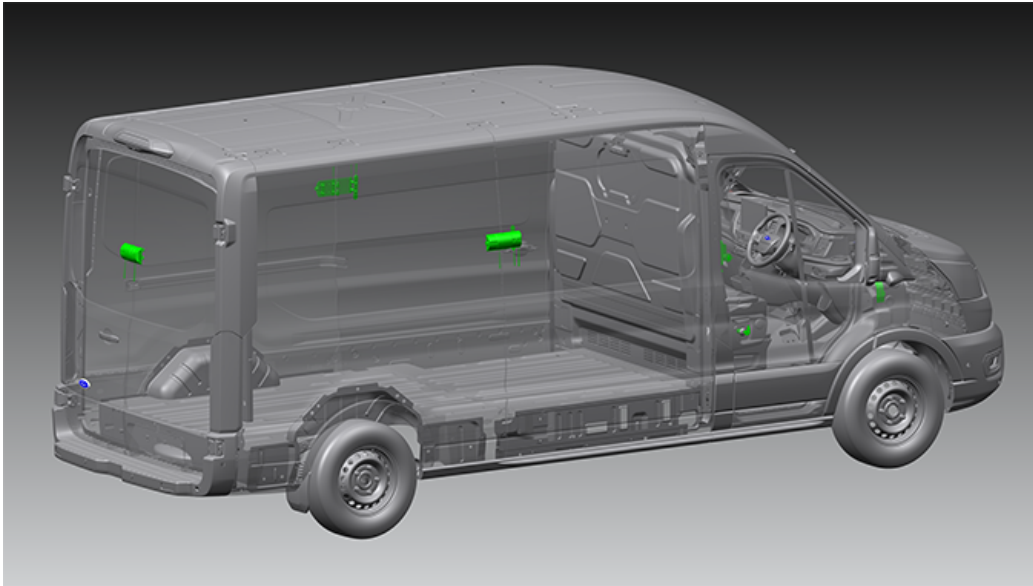

- 16x Digital Inputs
- 8x Analogue Inputs
- 6x 5A switched outputs - controlled via the sync display for switching equipment up to 5A (Beacons, lighting, isolators etc)
- 2X 10A switched outputs - controlled via the sync display for switching equipment up to 10A (light bars, pumps inverters etc)
- 4X 5A H-Bridge outputs - for power supply up to 5A
- 10X PWM based LS/HS switched outputs - for use when adding additional relays for switched power requirements greater than 10A
- Vehicle Comms – read only - access to a range of vehicle CAN signals to support vehicle conversions
- Private CAN – J1939.

## Exterior

- Armourshell Security Pack TVL™
- Chassis Cab Cutaway
- Double Chassis Cab Tarpaulin Conversion
- Enhanced Security Replock™ TVL™
- Hooklock Security Pack TVL™
- Magnetic Fold-Back Doors
- Skeletal Narrow Rear Track
- Slam Handle Security Pack TVL™
- Special Paint Options
- Specialist Direct Access Tyre Carrier

## Armourshell Security Pack TVL™

The Armourshell pack by market leader TVL™ is factory fitted providing additional protection for the vehicle in 5 ways:

- RepLock™ prevents the driver's door lock from being compromised
- Front door deadlocks are independently operated locks that cast a bolt between the door and B pillar once engaged.
- Armourshells provide a visual deterrent and are the most robust security option; an interlocking shell design and a supporting bolt mechanism offer enhanced protection of the load space
- Latch shields fitted to all load space doors protect from external puncture attempts to override the mechanism and
- Loom guards fitted to front cabin doors and rear cargo door to prevent door looms from being severed

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AAKAE

**Available on:** Transit Van

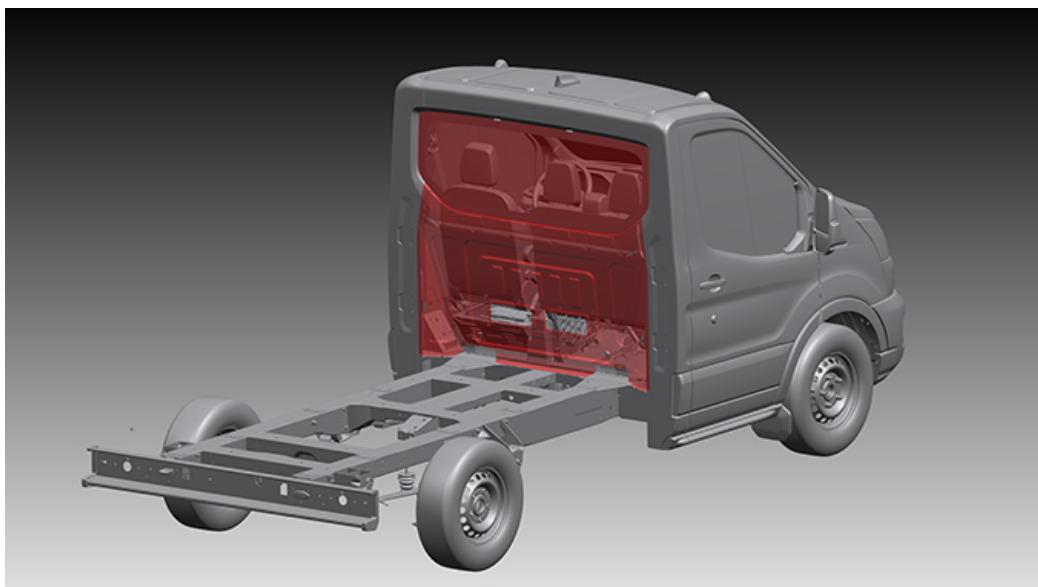

### Includes:

- Front Door Anti-Pick RepLock™
- Front Door Loom guards
- Front Door Deadlocks (Driver & Pass)
- Loom Guards RCD
- Latch Shields (SSLD, DSLD & RCD)
- Armourshells (SSLD, DSLD, RCD)

### Not available with:

- Power Side Load Door
- 2nd row glazing Transit Custom

## Chassis Cab Cutaway

Donor vehicle that enables conversions allowing walk back from the cab to the load area

The vehicle is delivered without a rear cab back panel and no rear glass. There are 15 fixing points at the B-pillar to support fixing of convertor body.

There is a temporary plastic back panel for shipping which is removed for conversion.

**Note:**

This feature is ideal for use in walk back parcel van, Ambulance, International Transport sleeper cabs, along with Bus/ Coach conversions on 5-tonne Chassis Cab.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AG5AK

**Available on:** Transit Chassis

### Includes:

- Deleted Sheet Back Panel
- Implements a Temporary Plastic Back Panel

## Double Chassis Cab Tarpaulin Conversion

This option includes the assembly of a Tarpaulin kit on a Transit Double Chassis Cab float.

The Tarpaulin encloses the entire cargo area. It can be easily closed/opened by using hooks in combination with a rope.

Side walls of the Tarpaulin system has a sliding curtain feature to be able to open them fully.

FWD only.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AALQQ

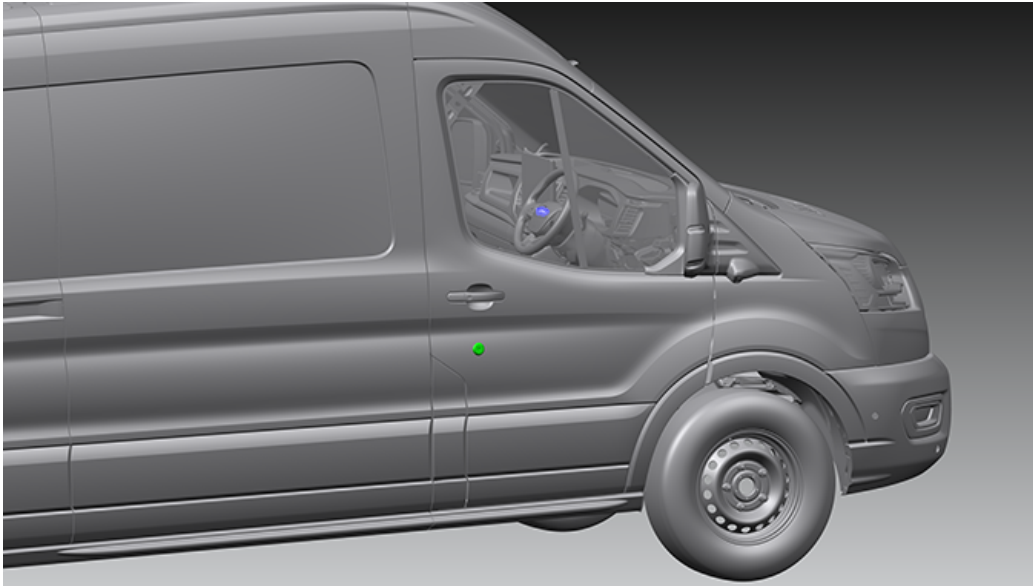

**Available on:** Transit Chassis

### Includes:

- Tarpaulin Kit
- Aluminium float - A9CAX

## Enhanced Security Replock™ TVL™

The Enhanced Security RepLock™, supplied by market leader TVL™, replaces the standard drivers door lock and is a unique, patented high-security replacement cylinder.

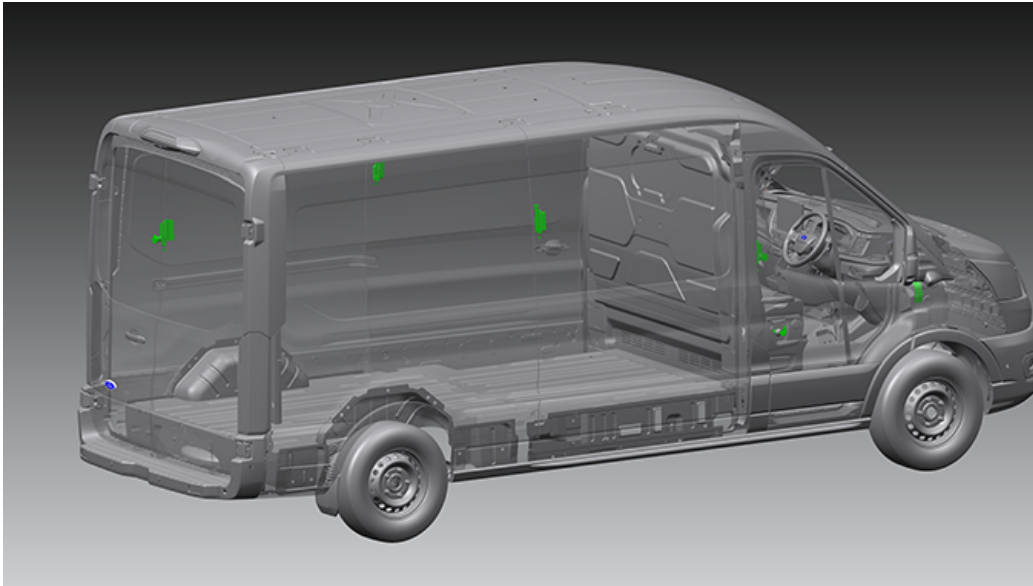

Made from a high-grade stainless steel and stops potential thieves from picking the driver's door open to gain access to the vehicle.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AAKBA

**Available on:** Transit Minibus, Transit Van, Transit Chassis

## Hooklock Security Pack TVL™

The Hook Lock security pack by market leader TVL™ is factory fitted enhancing protection for the vehicle in 5 ways:

- RepLock™ prevents the driver's door lock from being compromised and is factory fitted replacing original lock.
- Front door deadlocks are independently operated locks that cast a bolt between the door and B pillar once engaged.
- Hooklocks are fitted on all load space doors and lock the door to pillar using a high strength hook enhancing protection of the load space.
- Latch shields are fitted to all load space doors to protect from external puncture attempts to override the mechanism and
- Loom guards are fitted to cabin doors & RCD / Tailgate to prevent the door looms from being severed

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AAKAD

**Available on:** Transit Van

### Includes:

- Front Door Anti-Pick RepLock™
- Front Door Loom guards
- Front Door Deadlocks (Driver & Pass)
- Loom Guards RCD/Tailgate
- Latch Shields (SSLD, DSLD & RCD/Tailgate)
- Hooklocks (SSLD, DSLD RCD/Tailgate)

### Not available with:

- Power Side Load Door
- 2nd row glazing Transit Custom

# Magnetic Fold-Back Doors

Allows the rear cargo doors to be folded back to the body sides, minimising the total vehicle width when rear doors are open. Useful on vehicles when they need to reverse to a loading bay, as well on busy roads where open doors could cause obstruction. When fully open the doors are retained to the body sides with powerful magnets.

\*Available on Transit L2,L3, L4

\*\*L2, L3 variants the side load door is fitted with a rubber bump stop to avoid collision with open rear doors.

**Market Availability:** GREAT BRITAIN

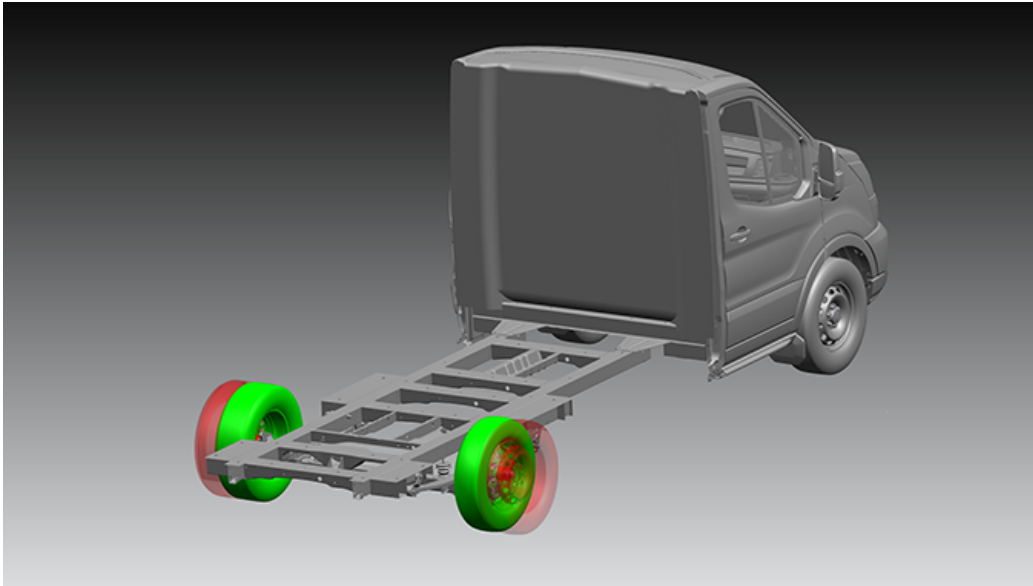

**Minor Feature Code:** A6KAP

**Available on:** Transit Van

## Includes:

- Kerbside Load Door (A4LAB)
- Optional pack content of Dual Side Load Doors (A4LAC)

## Skeletal Narrow Rear Track

This option uses a narrower rear axle on a skeletal chassis replacing the existing standard wider axle.

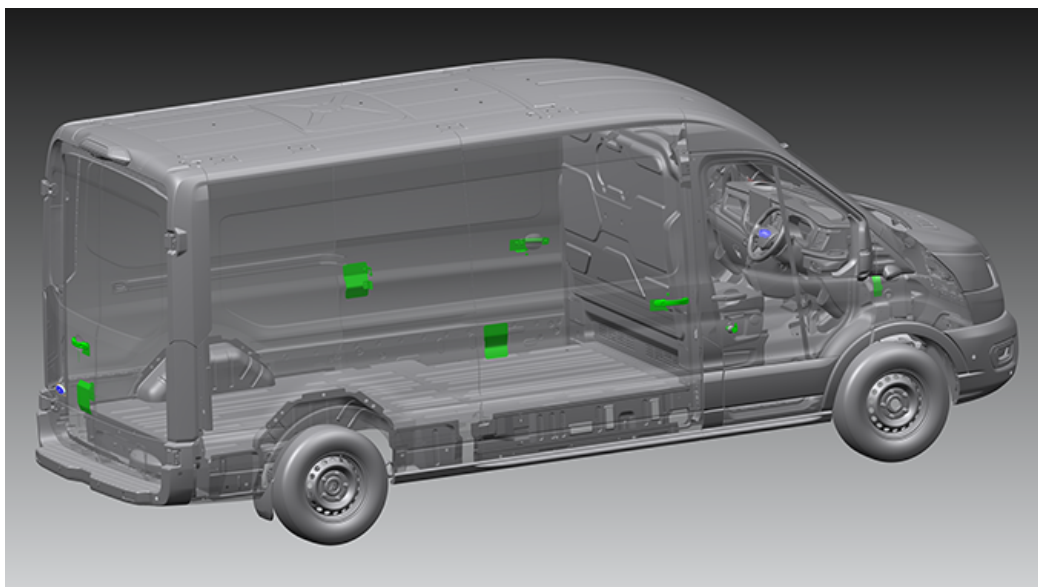

This solution is ideal for conversions with narrower boxes such as motorhomes and horse boxes.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** C2CBN

**Available on:** Transit Van, Transit Chassis

## Slam Handle Security Pack TVL™

The Slam Handle security pack by market leader TVL™ is factory fitted & enhances vehicle security in 4 ways:

- RepLock™ prevents the driver's door lock from being compromised
  - The Slam handles are an integrated slam locks fitted to all load space doors
  - Latch shields are fitted to all load space doors to protect from external puncture attempts to override the mechanism.
  - Loom guards and prevent the cables from being severed.
- Designed for the courier sector to enable fast exit from a van locking each time the driver exits, increasing their productivity.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AAKAC

**Available on:** Transit Van

### Includes:

- Front Door Anti-Pick RepLock™
- Front Door Loom guards
- Loom Guards RCD/Tailgate
- Latch Shields (SSLD, DSLD & RCD/Tailgate)
- Slam handle (SSLD, DSLD, RCD)

# Special Paint Options

A customer may wish to customise the exterior of their Ford Commercial Vehicle to reflect their business and brand. Ford offers over 100 Special Paint Options. Finished to the highest standards, all the customer will need to do is add their logo and brand details.

To stay up to date with the paint range and availability contact your local NSC for the latest SVO Paint List.

The below minimum order quantities apply:

Transit Connect: A minimum order of 14 applies or surcharge will be added

E-Transit: Transit SVO Paint available

Ranger: A minimum order of 50 applies, or surcharge added

Others: No restriction

**Note:**

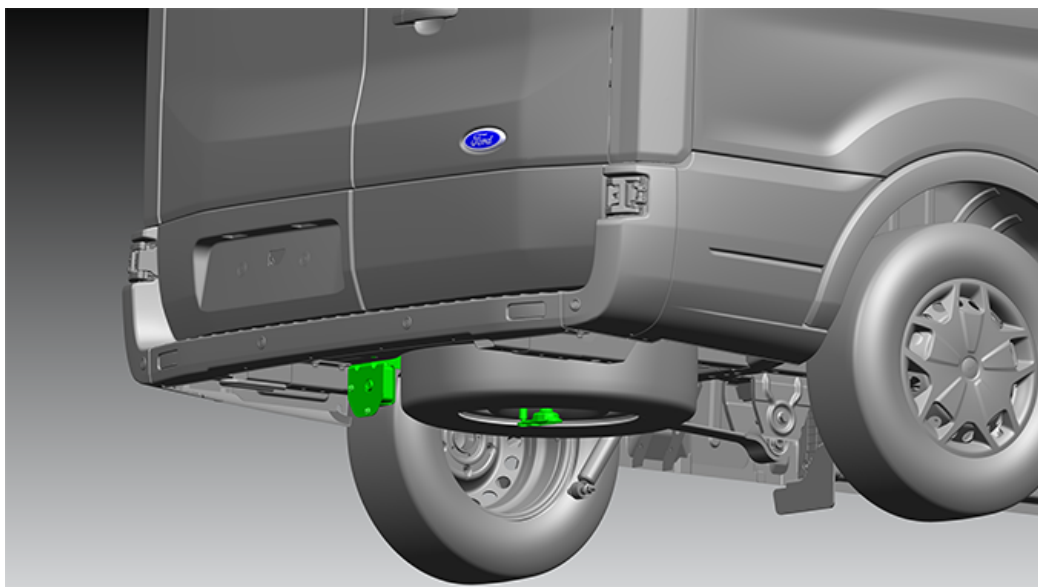

Availability of colours and delivery time may vary by market.

**Market Availability:** All markets

**Minor Feature Code:** Various

**Available on:** Transit Van, Transit Minibus, Transit Chassis

## Specialist Direct Access Tyre Carrier

The Specialist Direct Access Tyre Carrier allows the spare wheel to be removed from the cradle under the vehicle without opening the rear doors to access the release control.

Suitable for customers for whom a spare wheel release inside the rear doors may be inconvenient, e.g. refrigerated van, security van and ambulance.

It includes both the spare wheel and tool kit.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** CSGAB

**Available on:** Transit Minibus, Transit Van

### General Information:

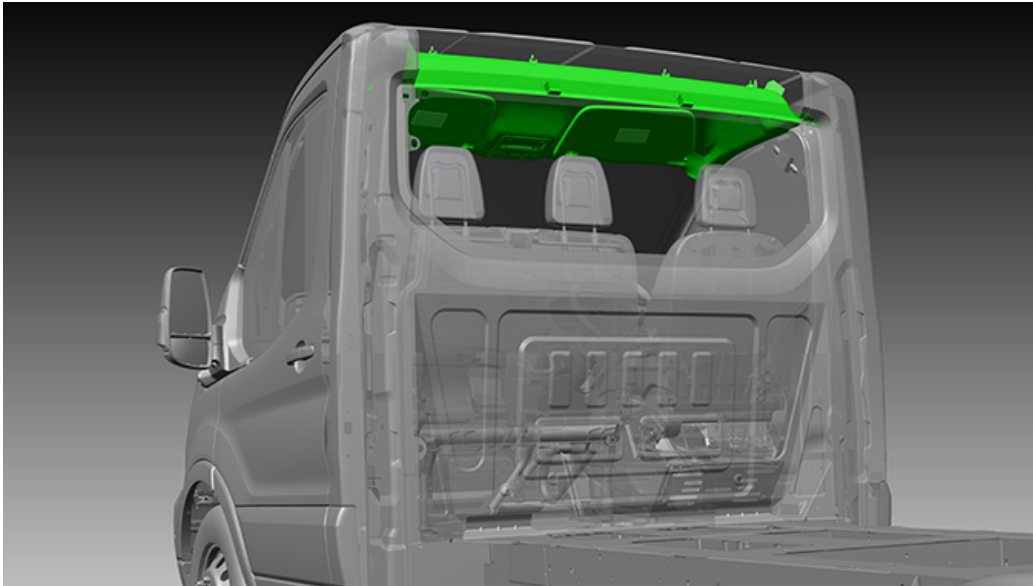

- The Specialist Direct Access Tyre Carrier cannot be ordered independently, it must be ordered in conjunction with the spare wheel option (SVO Code: D17BF).
- This option removes the trailer tow attachments, therefore it is not available to order with the Ford tow-bar.

## Interior

- Chassis Cab Headliner (Without Shelf)
- Digital Tachograph
- Front Seat Pack (SVO Seat Pack 1)
- Front Seat Pack (SVO Seat Pack 2)
- High Contrast Orange Seat Belts

## Chassis Cab Headliner (Without Shelf)

This option removes the existing overhead console and headliner with DIN slot, replacing it with a new headliner without a shelf as a lightweight option for supermarket delivery van conversions.

**Note:**

Only available on a single chassis cab.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** CYWAB

**Available on:** Transit Chassis

## Digital Tachograph

The Tachograph records the driving time, breaks, rest periods and is used for any commercial or for-hire purpose enterprise. Check local legislation for specific requirements.

**Note:**

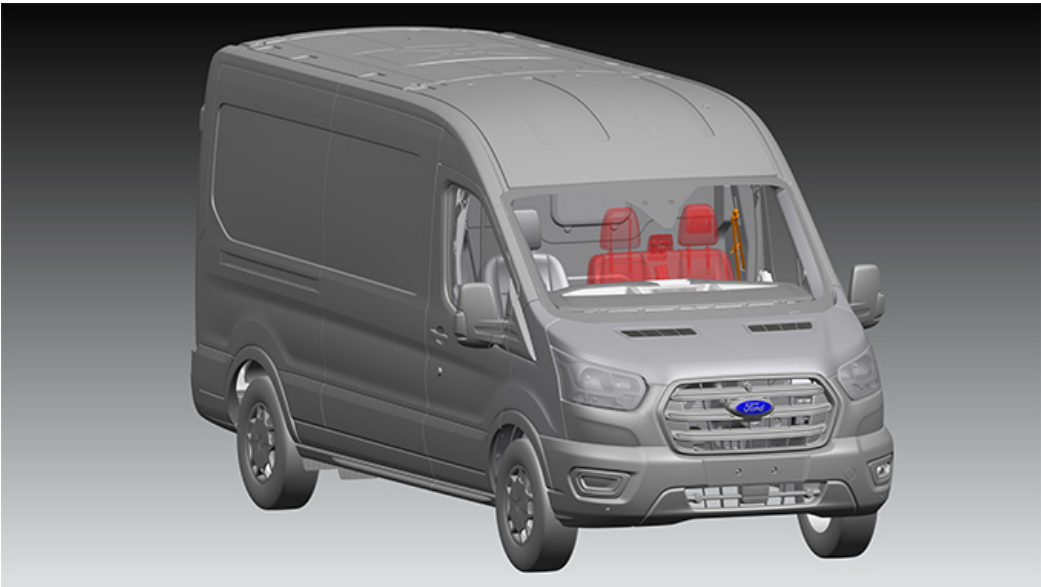

This feature is only available with Manual Transmission for Transit Custom.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** HDKAD

**Available on:** Transit Van

# Front Seat Pack (SVO Seat Pack 1)

The passenger seat and seat pedestal are removed, (passenger seat belt is retained ).  
This layout is used by various fleets such as postal and delivery companies.  
Driver seat is four-way adjustable with base cloth trim (Pack 1)  
**Market Availability:** GREAT BRITAIN  
**Minor Feature Code:** BVFDA  
**Available on:** Transit Van, Transit Chassis

Availability:

- Available with fixed steel bulkhead (unglazed and glazed), and removed bulkhead (where allowed)
- Available with plastic bulkhead

Not available with:

- Driver seat lumbar support
- Heated seat
- Side airbags
- Load-through hatch

## Front Seat Pack (SVO Seat Pack 2)

The passenger seat and seat pedestal are removed, (passenger seat belt is retained ).

This layout is used by various fleets such as postal and delivery companies.

6-way driver's seat with lumbar support and Trend Trim.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** BVFDB

**Available on:** Transit Van, Transit Chassis

### Availability:

- Available with fixed steel bulkhead (unglazed and glazed), and removed bulkhead (where allowed)
- Available with plastic bulkhead

### Not available with:

- Load-through hatch
- Heated seat
- Side airbag

## High Contrast Orange Seat Belts

High visibility Orange Seat Belt on driver and single passenger seat pack.  
Not available with dual front passenger seat pack.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** BVFDC

**Available on:** Transit Chassis

### Includes:

- Seat Pack SVO 3 – with driver and single front passenger seat and adds orange seat belt

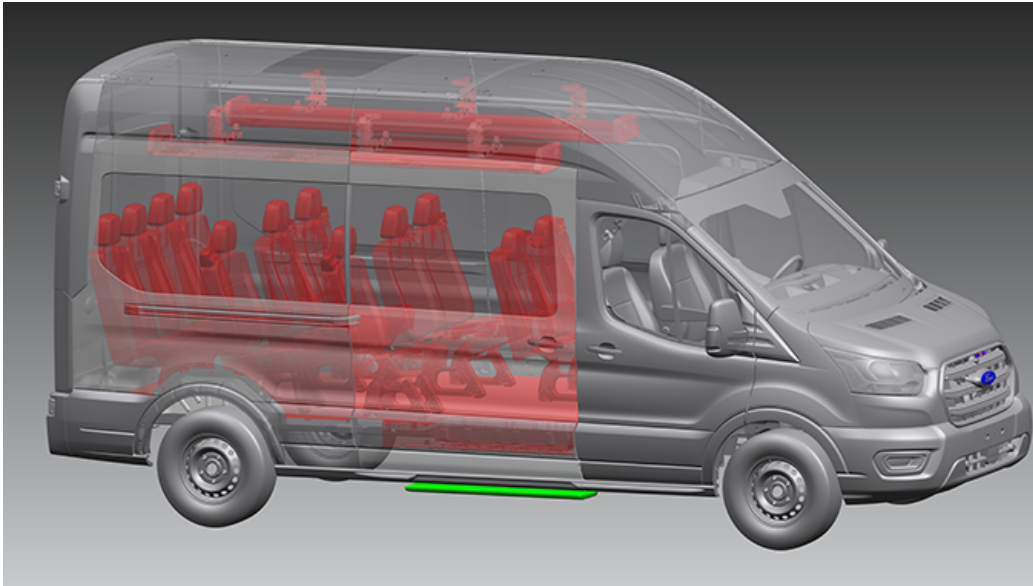

# Taxi Conversion Options

- People Carrier Glazed Prep Pack

## People Carrier Glazed Prep Pack

The option removes all rear seats from the Transit M2 minibus. Suitable for conversions into specialist people carriers (e.g. Wheelchair Accessible Vehicles), (Incomplete vehicle – Multistage)

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AALJJ

**Available on:** Transit Minibus

### Includes:

- Incomplete Vehicle (Multi-Stage)
- Kombi M1 Only
- Driver Seat Only
- High roof with full headliner
- No Side Load Doors
- Glazed Windows
- No Rear Seats
- All body fixings in rear rows to allow for desired specified seating configuration
- Emergency Hammer
- Spare Wheel
- Conf Int Light/Batt Saver-30M

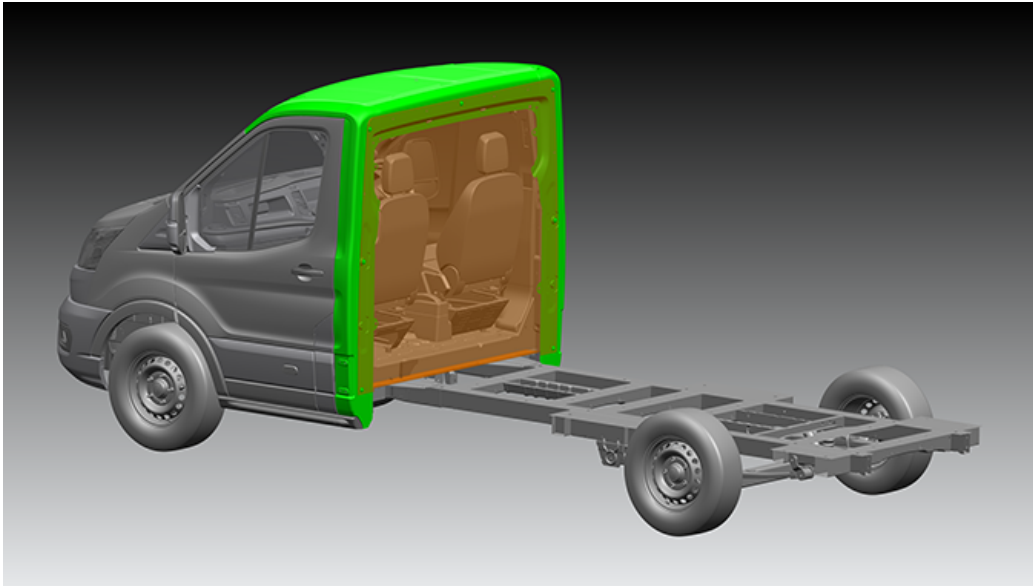

### Not available with:

- Bulkhead
- Load Area Protection Kit
- Cargo Stowage Rails
- Rear Seat Climate Control
- Rear Compartment Water Heater
- Side Load Doors

## Delivery Van Conversion Options

- Closed Roof Skeletal
- Express Delivery Van Pack Premium
- Van High Roof Headliner (Without Shelf)

## Closed Roof Skeletal

For customers who require low-floor Skeletal with the additional benefit of Closed Roof and B-Pillar cappings. A bulkhead / back panel to be added to suit the conversion.

Ideal for conversions such as refrigeration and box vans.

**Note:**

Standard 'Open Roof' Skeletal still available

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** A1GAJ

**Available on:** Transit Chassis

### Includes:

- Roof of the vehicle to be closed permanently
- B-pillars caps with 15 fitting points for body builder connection on the back
- Back to be closed with a temporary panel for shipping

# Express Delivery Van Pack Premium

The Express Delivery Van Pack Premium offers factory-fitted integrated rails and fixing points for racking systems and securing loads

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** AALQH

**Available on:** Transit Van

**Includes:**

- Multiple fixing points to facilitate a range of racking solutions
- Multifunctional hard floor
- Integrated rails with additional fixing points in the floor
- Multifunctional side rails (half height and full height)
- Single side load door (not available with dual side load door)
- Market standard bulkhead
- Rear load box fully lined with honeycomb plastic cladding
- Rear trim board

**Not available with:**

- AAL SVO Packs
- Power Equipment Groups
- Dual Rear Wheel Pack
- Load Area Protection Kit
- Rear Overhead Stowage
- Interior Partition
- 2nd row window

## Van High Roof Headliner (Without Shelf)

This option removes the existing overhead console and headliner with DIN slot, replacing it with a new higher headliner without a shelf. This allows the driver to walk through to the rear of the vehicle as it is only available without a bulkhead.

Suitable for delivery vehicles where there is a requirement to move freely through the cabin.

**Note:**

Only available on a high roof van.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** CYWAB

**Available on:** Transit Van

## Motorhome Conversion Options

- Camper Swivel Seats Less Fabric (SVO Seat Pack 59)
- Front Swivel Seats (Seat Pack 58)
- Privacy Glazed Rear Windows

## Camper Swivel Seats Less Fabric (SVO Seat Pack 59)

The pack supplies the Camper swivel seats without the Ford fabric, allowing convertor to trim at conversion. To protect the Seat Belt Minder (in the seat cushion), seat is covered with a protective film.

**Note:**

Exposed seat occupant sensor requires additional care during re-covering. Protective coverings are supplied for transport to convertor. (As seen in images)

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** BVFCC

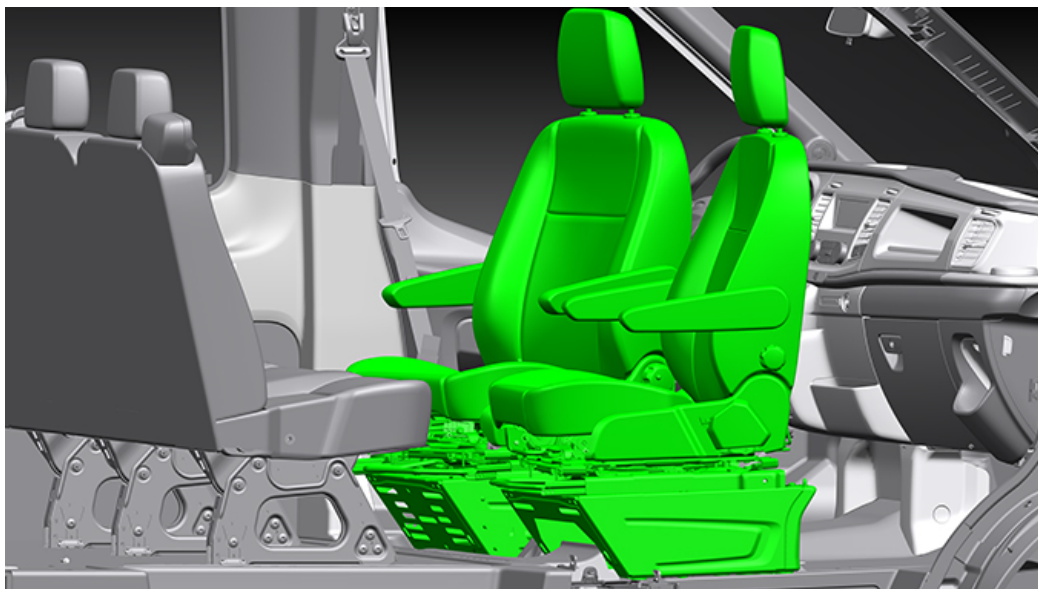

**Available on:** Transit Van, Transit Chassis

**Includes:**

- Fabricless seats on Transit
- Seat belt reminder pad

## Front Swivel Seats (Seat Pack 58)

The front seats have a swivel function to allow both front seats to rotate into a rear-facing position. Suitable for camper conversions.

**Note:**

Only available on Camper Donor Vehicles (ABMC1 & ABMC2)

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** BVFCB

**Available on:** Transit Van, Transit Chassis

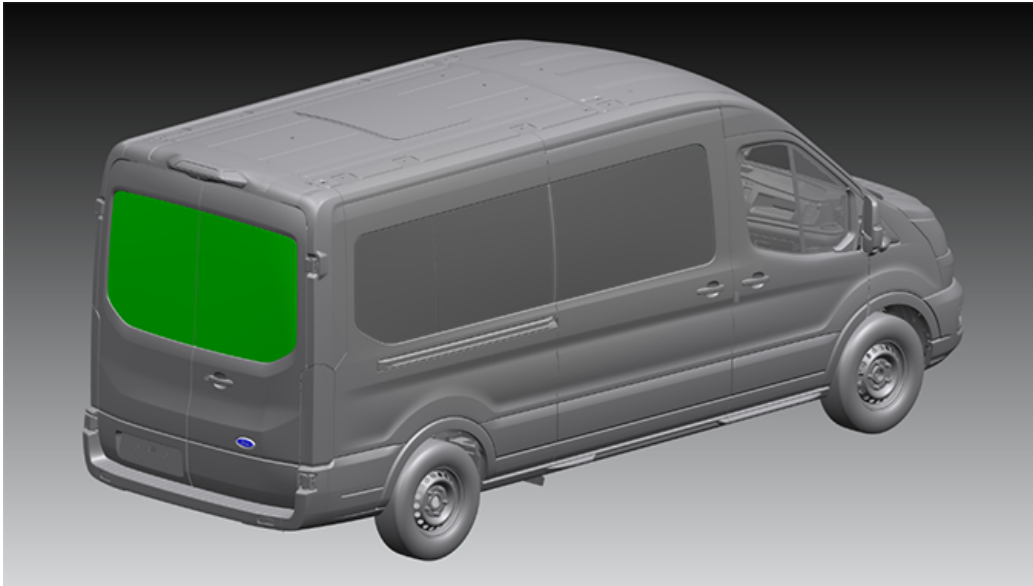

**Includes:**

- Two-way headrests
- Four-way manual adjustment for driver and passenger
- Lumbar seat support for driver and passenger
- Adjustable armrests for driver and passenger
- Ebony – Capital/City (Fabric)

**Not available with:**

- Side airbags
- Heated seats
- Bulkhead (Transit only)
- H8 AGM battery

## Privacy Glazed Rear Windows

This option replaces the rear cargo door tinted glass on camper van donor vehicles with privacy glass.

NOTE: Selecting Privacy glass removes the rear wash wipers.

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** B2GAE

**Available on:** Transit Van

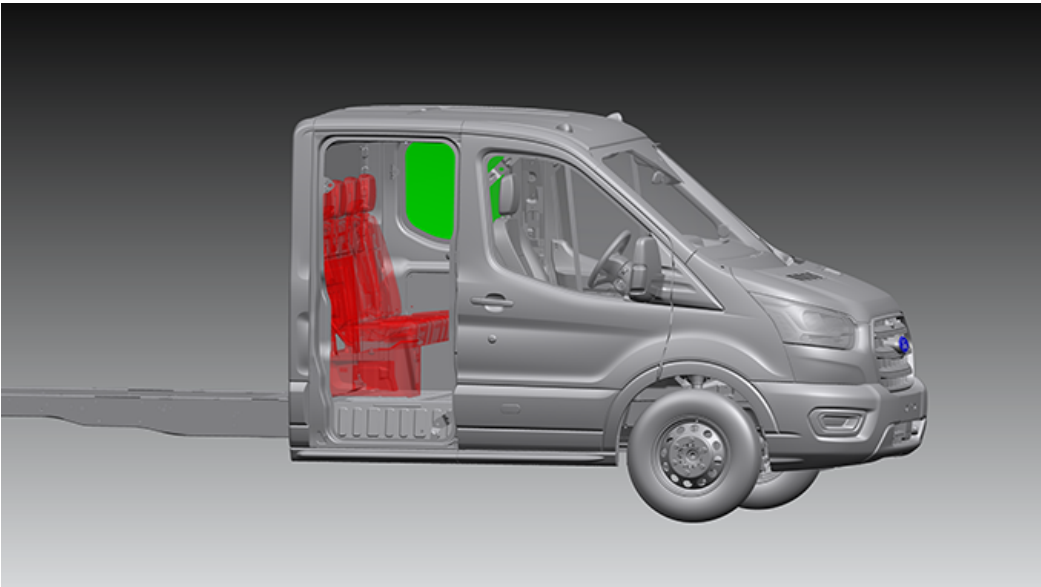

### Not available with:

- Rear window wipers

## Utility Pack Conversion Options

- Double Cab Equipment Storage

# Double Cab Equipment Storage

For operators who require an internal storage area for equipment in the second row. The rear seats of the double cab are removed, rear doors and back panel are unglazed. (Incomplete vehicle – Multistage).

**Note:**  
Partial headliner over first row only is optional

**Market Availability:** GREAT BRITAIN

**Minor Feature Code:** A5DAB

**Available on:** Transit Chassis

Includes:

- Double Chassis Cabs ONLY
- Omits 2nd row seating
- Omits some 2nd row trim items
- Solid unglazed 2nd row doors
- Pack does NOT include a bulkhead across the B-pillars
- Rear back panel is glazed
- Moulded headliner is extended
- Day/Night interior mirror (optional)

Not available with:

- Side airbag
- Factory bulkhead

# Glossary

<b>Ford Pro Special Vehicles</b>	The Special Vehicles team delivers bespoke conversion solutions to our customers to drive their business productivity
<b>Body and Equipment Mounting Manual (BEMM)</b>	A manual providing technical details and best practice for convertors. All convertors or upfitters should use the BEMM and should adhere to it when converting or modifying any Ford vehicles to protect the Ford Warranty and be sure of a safe conversion. BEMM can be found here: <a href="#">Home (fordpro-specialvehicles.com)</a>
<b>Converters / Bodybuilder / Upfitter</b>	A company whose area of expertise is vehicle conversion, taking a Ford vehicle (a 'donor' product) and adapting it for a specific function / market segment (e.g. a cherry picker, delivery vehicle, tipper)
<b>Transit Chassis Cab</b>	The Transit Chassis Cab consists of closed cab driver area (the chassis cab), frame rails, integral body mounting points and robust high tensile steel frame construction, providing a strong and reliable base for conversion
<b>Transit Skeletal Chassis</b>	Also known as a Stripped Chassis is an open cab area (no roof or closed back section) chassis cab that offers a chassis height 102mm lower than the conventional chassis cab and has a 200kg payload advantage over Transit Chassis Cab. The open-back cab allows unrestricted walk-through access from the cab to the load space of the converted vehicle
<b>L1, L2, L3, L4 &amp; L5</b>	Vehicle length has a set of abbreviations. L1 / SWB = Short Wheel Base, L2 / MWB = Medium Wheel Base, L3 / LWB = Long Wheel Base, L4 / EWB = Extended Wheel Base, and L5 / ELWB = Extended Long Wheel Base
<b>Factory-fitted</b>	An item that is fitted in the factory as part of the vehicle production when the vehicle is built.
<b>H1, H2, H3</b>	Roof Height abbreviations. H1 = Standard Roof, H2 = Medium Roof Height, H3 = High Roof.
